Abstracts

The 2018 U.S. Computer Systems Designs Services Industry-Industry and Market Report, published annually by Barnes Reports, contains timely and accurate industry statistics, forecasts and demographics.

The report features 2018 current and 2019 forecast estimates on the size of the industry (sales, establishments, employment) nationally and for all 50 U.S. States and over 900 metro areas. Other data include financial ratios, number of firms, payroll, industry definition, 5-year historical trends on industry sales, establishments and employment, a breakdown of establishments, sales and employment by employee size of establishment (9 categories), and estimates on up to 10 sub-industries, including systems engineering, computer related, Local area network (LAN) systems integrator, systems integration, value-added resellers, computer systems, and Computer-aided design (CAD) systems service.

This industry comprises establishments primarily engaged in planning and designing computer systems that integrate computer hardware, software, and communication technologies. The hardware and software components of the system may be provided by this establishment or company as part of integrated services or may be provided by third parties or vendors. These establishments often install the system and train and support users of the system.

Barnes Reports' Industry & Market reports are an essential part of any GAP analysis, benchmarking project, SWOT analysis, business plan, risk analysis, or growth-share matrix.
