

2018 Nanotechnology and Fuel Cell Research Review

<https://marketpublishers.com/r/22903D9D85BEN.html>

Date: February 2019

Pages: 122

Price: US\$ 1,250.00 (Single User License)

ID: 22903D9D85BEN

Abstracts

REPORT SCOPE

In recent years, nanotechnology has gained popularity across the world with advanced and modernized innovations in various applications including composite materials, nanoparticles, fabrication technologies, small machine equipment manufacturing and many others. Essentially, nanotechnology is deeply integrated in various industrial applications, providing advances in process delivery and costeffective applications in industries such as food and beverage, healthcare and life science, electronics, energy, aerospace, chemical and many others.

Specifically, nanotechnology is being prominently used in fuel cell applications, as the fuel cell manufacturers applying platinum nanoparticles to lower the amount of platinum in cells for cost reduction. With surge in fuel cell electric vehicle production, nanotechnology application in fuel cell is expected to increase further. U.S. Department of Energy, The National Renewable Energy Laboratory (U.S.), and Union of Concerned Scientists (U.S.) are doing research for hydrogen powered fuel cell to make it more efficient, low cost and commercially viable.

Moreover, miniaturization in the electronic industry is leading to the introduction of new semiconductor manufacturing processes. For integrated circuits (ICs), comprising of nanofiber are expericing great demand in the industry. Nanofiber can withstand high amount of heat generated in electric power modules and exhibits good conductivity.

Contents

CHAPTER 1 FOREWORD

CHAPTER 2 MATERIALS FOR PROTON EXCHANGE MEMBRANES AND MEMBRANE ELECTRODE ASSEMBLIES FOR PEM FUEL CELLS (FCB035F)

Introduction

Study Goals and Objectives

Reasons for Doing This Study

Intended Audience

Scope of Report

Methodology

Information Sources

Geographic Breakdown

Analyst's Credentials

BCC Custom Research

Related BCC Research Reports

Summary

Fuel Cell Technology

Alkaline Fuel Cells

Phosphoric Acid Fuel Cells

Solid Oxide Fuel Cells

Molten Carbonate Fuel Cells

Aluminum-air Fuel Cells

PEMFC Component Overview

Proton Exchange Membrane Fuel Cell Fundamentals

Fuel and Fuel Reforming Fundamentals

The Direct Methanol Fuel Cell Variation

Proton Exchange Membrane Fuel Cell Companies

Market Segmentation and Industry Concentration

CHAPTER 3 NANOCOMPOSITES, NANOPARTICLES, NANOCCLAYS AND NANOTUBES: GLOBAL MARKETS TO 2022 (NAN021H)

Introduction

Study Goals and Objectives

Reasons for Doing This Study

Scope of Report

Information Sources
Methodology
Geographic Breakdown
Analyst's Credentials
Related BCC Research Reports
Summary
General Description
Definitions
Brief History of Nanocomposites
General Properties of Nanocomposites vs. Conventional Composites
Increased Tensile Strength, Modulus, and Heat Distortion Temperature
Color/Transparency
Conductivity
Flame Retardancy
Barrier Properties
Anticorrosive Properties
Types of Nanocomposites, Their Properties and Applications
Clay Nanocomposites
Ceramic Nanocomposites
Carbon Nanotube Composites
Metal-Containing Nanocomposites
Metal Oxide-Containing Nanocomposites
Nanobiocomposites

CHAPTER 4 GLOBAL MARKETS AND TECHNOLOGIES FOR NANOFIBERS (NAN043E)

Introduction
Study Goals and Objectives
Reasons for Doing This Study
Intended Audience
Scope of Report
Methodology and Information Sources
Market Breakdown
Analyst's Credentials
Related BCC Research Reports
Summary
Nanomaterials and Nanofibers
The Nanotechnology Industry

Milestones in the History of Nanofibers and Recent Events
Current and Emerging Applications for Nanofibers

CHAPTER 5 NANODEVICES AND NANOMACHINES: THE GLOBAL MARKET (NAN062A)

Introduction
Reasons for Doing This Study
Study Goals and Objectives
Scope of Report
Information Sources
Methodology
Regional Breakdown
Analyst's Credentials
Related BCC Research Reports
Summary
Background
Definitions
General Properties of Nanoscale Materials and Systems
Brief History of Nanomachines
Major Technology Segments
Nanomanipulators
Nanotools
Nanosensors
Nanoscale Computing Devices
Nanorobots
Other Nanomachines
Fabrication Approaches
Top-Down Approach
Bottom-Up Approach
Hybrid Top-Down Bottom-Up Approach
Bio-Hybrid Approach
End Users and Applications
Research
Healthcare
Microelectronics and Information Technology
Process Industries
Energy
Environmental Protection

Public Safety and Security
Military

CHAPTER 6 RESIDENTIAL ENERGY STORAGE, BLOCKCHAIN AND ENERGY SHARING SYSTEMS: TECHNOLOGIES AND GLOBAL MARKET (FCB043A)

Introduction
Study Goals and Objectives
Reasons for Doing This Study
Scope of Report
Information Sources
Methodology
Geographic Breakdown
What the Industry is Saying
Analyst's Credentials
Related BCC Research Reports
Summary
Market and Technology Background
Construction of Batteries
Types of Electrochemical Compositions
Residential Battery Storage Technologies and Components
Battery Pack Design
Design Overview
Configuration of Cells in a Battery Pack
Battery Pack Structural Design
Cell Protection
Battery Pack Control (Monitoring and Management)
Battery Pack Use
Solar Inverter Integration
Safety System Design and Component Selection
Residential Battery Storage Electrochemical Technologies
Conventional Batteries
How Rechargeable Batteries Work
Lead-Acid Batteries

List Of Tables

LIST OF TABLES

Table 1: Global PEMFC MEA Market, by Application, Through 2022

Table 2: Fuel Cell Comparison

Table 3: PEMFC and DMFC Makers

Table 4: Types of Portable Products

Table 5: Important Portable Product Market Factors

Table 6: Global Nanocomposite Market, by Type, Through 2022

Table 7: Properties and Main Applications of Principal Types of Commercial Clay Nanocomposites

Table 8: Other Clay Nanocomposites

Table 9: Principal Applications of Clay Containing Composites

Table 10: Clay Nanocomposite Suppliers

Table 11: Properties and Main Applications of Principal Types of Ceramic-containing Nanocomposites

Table 12: Principal Applications of Ceramic-containing Composites

Table 13: Ceramic Nanocomposite Suppliers

Table 14: Properties of Carbon Nanotube Composites

Table 15: Principal Applications of Nanotube Composites

Table 16: Carbon Nanotube Composite Suppliers

Table 17: Global Market for Nanofiber Products, by Application, Through 2023

Table 18: Nanofibers, Nanorods, Nanoribbons, and Nanowires

Table 19: The Nanotechnology Industry, 2018

Table 20: Global Market for Nanotechnology, by Type, Through 2023

Table 21: Technological Milestones for Nanofibers

Table 22: Global Market for Nanodevices and Nanomachines, by Type, Through 2028

Table 23: Nanodevices and Nanomachines Historical Timeline

Table 24: Nanodevices and Nanomachine Types, 2018

Table 25: Nanodevices and Nanomachine Fabrication Approaches

Table 26: Nanodevice and Nanomachine End Users and Applications

Table 27: Global Market for Residential Energy Storage, by Battery Type, Through 2023

List Of Figures

LIST OF FIGURES

- Figure 1: Global PEMFC MEA Market, by Application, 2016-2022
