

2019 Instrumentation & Sensors Research Review

<https://marketpublishers.com/r/217A4B1C1D69EN.html>

Date: October 2019

Pages: 249

Price: US\$ 2,750.00 (Single User License)

ID: 217A4B1C1D69EN

Abstracts

REPORT SCOPE:

Artificial intelligence, connected cars, Internet of things, cognitive computing, connected living, smart devices and smart appliances are the current technological trends in recent times. These technologies have one thing in common, they are dependent on instruments and sensors. The fusion of different instrumentation and sensor devices is necessary to attain desired outcomes, making this industry a major area for future development of various aspects of daily life.

The use of sensors has expanded beyond the traditional fields of temperature, pressure and flow measurement. The technological advances and the use of micromachining and microelectromechanical systems (MEMS) technologies in microsensors are allowing manufacturers to use more sensors and in turn increasing number of sensors on a microscopic scale.

The use of sensors is proving to be a revolution, as they are used in for, diagnostics in medical industry for various application and devices, space exploration and research, improved performance of solar power, fuel cell and batteries, improved safety and security; intelligent and self-learning systems, driverless cars and many more. The sensors industry is progressing rapidly and with technological advancements it has become an integral part of everyday life for us.

Research Reviews from BCC Research provide market professionals with concise market coverage within a specific research category. These Research Reviews include portions of several market research reports that were published in 2019 and are an efficient way for market professionals to keep up with the general market developments of 2019.

Contents

CHAPTER 1 FOREWORD

CHAPTER 2 SENSORS: TECHNOLOGIES AND GLOBAL MARKETS (IAS006K)

Introduction
Study Goals and Objectives
Reasons for Doing This Study
Intended Audience
Scope of Report
Information Sources
Methodology
Geographic Breakdown
Analyst's Credentials
BCC Custom Research
Related BCC Research Reports
Summary and Highlights
Overview of Sensor Technologies
Basic Sensor Technologies
Sensor Types
Internet of Things
IoT Sensors
Industrial Internet of Things (IIoT) Sensors
Image Sensors
Biosensors
Chemical Sensors
Fingerprint Sensors
Radar Sensors
Load, Force and Torque Sensors
Position Sensors
Pressure Sensors
Temperature Sensors
Flow Sensors
Level Sensors
Miscellaneous Sensors
Sensor Applications
Sensor Applications in the Automotive Industry
Sensor Applications in the Consumer Goods Industry

Sensor Applications in the Aircraft and Aerospace Industry
Sensor Applications in the Food and Beverage Industry
Sensor Applications in the Shipbuilding Industry
Sensor Applications in the Cement Industry
Sensor Applications in the Paper Industry
Sensor Applications in the Mining and Metal Industry
Sensor Applications in the Power Generation Industry
Sensor Applications in the Building Material Industry
Sensor Applications in the Chemical Industry
Sensor Applications in the Petrochemical Industry
Sensor Applications in the Pharmaceutical Industry
Sensor Applications in General Industries
Sensor Applications in Traffic Management
Sensor Applications in the Medical Field
Sensor Applications in Water Management
Sensor Applications in Environmental Monitoring
Sensor in Offshore Applications
Sensor Applications in Alternative Energy Production
Sensor Applications in Wastewater Treatment Plants
Sensor Applications in Environmental Protection
Sensor Applications in Tests and Measurements
Technological Developments
Advanced Driver Assistance Systems
Other Innovations in Sensor Technology
Sensor Life Cycle Assessment
Technology Life Cycle
History of Sensors
History of Mechanical and Electrical Measurement Technologies
History of Strain Gauges
History of Load Cell Sensors
History of Accelerometers
History of MEMS Sensors
History of Biosensors
History of Fingerprint Sensors
History of the Internet of Things and Connected Sensors

CHAPTER 3 MACHINE VISION - 2D AND 3D MV SYSTEMS: TECHNOLOGIES AND MARKETS (IAS010H)

Introduction
Study Goals and Objectives
Reasons for Doing the Study
Scope of Report
Intended Audiences
Information Sources
Methodology
Geographic Breakdown
Summary and Highlights
Machine Vision Systems Market, by Technology
Segmentation of Machine Vision Systems Based on Technology
Global Market for MV Systems Based on Types of Vision System Used
Global Market for 2D MV Systems Based on Technology
Global Market for 3D MV Systems Based on Technology
Global Market for Components of 2D MV Systems
Global Market for Components of 3D MV Systems
Global Market for All Components of 2D and 3D MV Systems
Global Market for Components of Industrial 2D and 3D MV Systems
Global Market for Components of Non-Industrial 2D and 3D MV Systems
Global Market for 2D MV Systems Based on Technology
Global Market for 3D MV Systems Based on Technology
Segmentation of 2D and 3D MV Systems Based on Technology
Regional Combined Market for 2D and 3D MV Systems Based on Technology
Global Market for Industrial 2D and 3D MV Systems Based on Technology
Regional Market for Industrial 2D and 3D MV Systems Based on Technology
Global Market for Non-Industrial 2D and 3D MV Systems Based on Technology
Regional Market for Non-Industrial 2D and 3D MV Systems Based on Technology

CHAPTER 4 QUANTUM SENSORS: QUANTUM ENTANGLEMENT FOR COMMUNICATIONS AND BEYOND (IAS091A)

Introduction
Reasons for Doing This Study
Scope of Report
Research Methodology
Intended Audience
Information Sources
Regional Breakdown
Analyst's Credentials

Related BCC Research Reports
Summary and Highlights
Market and Technology Background
Market Definition and the Evolution of Quantum Sensors
Concept of Quantum Entanglement for Communication
The Einstein-Rosen-Podolsky Paradox
The Zeno Effect
Interferometers and Their Functioning
Specialized Lasers and Their Functioning
Future Outlook and Expectations
Key Developments in the Field of Quantum Sensors
Quotes by Key Opinion Leaders
Value Chain Analysis

CHAPTER 5 SENSIBLE SENSORS IN EVERYDAY LIFE (IAS146A)

Introduction
Geographic Breakdown
Analyst's Credentials
Related BCC Research Reports
Summary and Highlights
Sensors in Everyday Life
Global Market for Sensors Involved in Everyday Life
Regional Market for Sensors Involved in Everyday Life
Technology Background
Overview of Sensors in Everyday Life
Types of Standard Sensors
Sensor Applications in Smart Homes
Smart Home Security System
Smart Lighting
Smart Thermostats
Smart Home Entertainment
Home Utilities Automation

CHAPTER 6 TERAHERTZ RADIATION SYSTEMS: TECHNOLOGIES AND GLOBAL MARKETS (IAS029F)

Introduction
Study Goals and Objectives

Reasons for Doing This Study
Scope of Report
Information Sources
Methodology
Geographic Breakdown
Analyst's Credentials
Related BCC Research Reports
Summary and Highlights
General Description of Terahertz Radiation
THz Enabling Technologies
Types of THz Systems
Potential THz End Uses and Applications
Overall Market Size and Segmentation

CHAPTER 7 PHARMACY AUTOMATION: TECHNOLOGIES AND GLOBAL MARKETS (IAS026F)

Study Goals and Objectives
Reasons for Doing This Study
Scope of Report
Methodology
Geographic Breakdown
Analyst's Credentials
Related BCC Research Reports
Summary and Highlights
Market Overview
Leading Manufacturers
Pharmacy Automation Industry Structure
Background, History and Growth of the Pharmacy Automation Market
Employing Automation to Improve Current Medication Delivery Systems
Joint Commission Involvement
Regulatory Authorities
Healthcare Personnel Trends
Consumer Issues
Medication Management Components
Implementation Issues
Lifting Barriers to Pharmacy Automation Implementation
Cost-Effectiveness in Pharmacy Automation
Industry Consolidation

Worldwide Population Growth
