Abstracts

Report Highlights:

The global market for aerospace ceramics should grow from \$4.9 billion in 2021 to \$8.8 billion by 2026 with a compound annual growth rate (CAGR) of 12.2% for the period of 2021-2026.

The global market for glass ceramics is estimated to grow from \$1.4 billion in 2021 to reach \$1.8 billion by 2026, at a compound annual growth rate (CAGR) of 5.8% during the forecast period of 2021-2026.

The global market for glass fiber is estimated to grow from \$10.4 billion in 2021 to reach about \$12.8 billion by 2026, at a compound annual growth rate (CAGR) of 4.1% during the forecast period of 2021-2026.

In May 2021, the General Assembly of the United Nations declared 2022 the International Year of Glass. This announcement highlighted the significant impact of glass-related technologies on our daily life. At BCC Research, global glass and ceramics technologies market reports are among our most-downloaded reports.

This 2021 Research Review provides a sampling of the typed of quantitative market information, analysis, and guidance that has been aiding business decision-making since the inception of BCC Research in 1971. It includes the highlights of reports published in 2021 and early 2022 on the following markets -

AVM218A Aerospace Ceramics: Global Markets to 2026

AVM220A Glass Ceramics: Global Markets to 2026

AVM223A Global Metal Glass Market

AVM225A Glass Fiber: Global Markets

We encourage you to obtain and benefit from the full market research reports that are excerpted in this Research Review. BCC Research looks forward to serving your market intelligence needs in the future.
