Abstracts

REPORT SCOPE:

The scope of this report is focused on 4D GIS industry drivers and challenges. This report explores the industry by type, application and geography. Revenue forecasts for 2018 through 2023 are provided. The 4D GIS market is segmented into three categories

-

Components: hardware, software, data, people and methods.

Applications: aerospace and defense, government, healthcare, construction and manufacturing, natural resources and others.

Region: North America, Europe, Asia-Pacific and the Rest of the World (RoW).

This report covers global market trends with data from 2018 to 2024 and compound annual growth rate (CAGR) projections for 2019 to 2024. Projected and forecasted revenue values are in constant U.S. dollars, unadjusted for inflation.

REPORT INCLUDES:

An overview of the global economic outlook of fourth dimension (4D) based geographic information system (GIS) market

Analyses of global market trends, with interrelated market size and data from 2018 to 2019, and revenue projections of compound annual growth rates (CAGRs) through 2024

Discussion on the role of 4D GIS mapping technology with regards to building infrastructure monitoring and analysis, increasing use of location-based services, and advancements in geospatial analytics with the emergence of artificial intelligence and big data analytics

Understanding the role of 4D GIS components such as hardware, software, data, and methods/solutions and their GIS mapping applications in aerospace and defense, government, healthcare, telecommunication, manufacturing and construction, and natural resources etc.

Listing of major market players within the 4D GIS field

Contents

CHAPTER 1 4D GEOGRAPHIC INFORMATION SYSTEMS

Introduction

Study Goals and Objectives

Scope of Report

Market Drivers and Challenges

Growing Use of the Internet of Things and the Concept of the GIS of Things

Building Infrastructure Monitoring and Analysis Using 4D GIS

Growing Use of Location-Based Services

Advancements in Geospatial Analytics with the Emergence of Artificial Intelligence and Big Data Analytics

Regulatory and Legal Issues with Geospatial Technology

High Implementation Costs Associated with Solutions

Interrelated Markets

4D GIS Components

Hardware

Software

Data

Methods/Solutions

4D GIS Application Areas

Aerospace and Defense

Government

Healthcare

Telecommunication

Construction and Manufacturing

Natural Resources

Others

4D GIS Potential by Region

North America

Europe

Asia-Pacific

Rest of the World

GIS Market Players

Analyst's Credentials

Related BCC Research Reports
