Abstracts

REPORT SCOPE:

This report provides an in-depth analysis of the North American 5G services market and its segments, which are divided by applications, end users and country. The services considered in this report include deployment services; support services such as preemptive services offered by technology vendors like Cisco and Ericsson; radio services; predictive services; and operating services (offered by telecom providers such as AT&T, Sprint and Verizon) such as wireless, strategic, voice and data services. It discusses the different applications of 5G services in order to derive specific market estimates. The types of applications include URLLC, mMTC, eMBB and FWA, and the type of end user is further subdivided into consumers and enterprises subsegments. The enterprise segment comprises energy and utilities, media and entertainment, healthcare, transportation and logistics, retail, manufacturing and others (such as home automation, education, agriculture, BFSI and chemical). The country level segment covers the U.S., Canada and Mexico. The report also discusses strategies adopted by major players in the North American 5G services market.

Market size is forecasted for 2020, 2021 and 2025. Forecasted values are based on technology vendors as well as telecom providers, and governments investments in the commercialization of 5G. As revenue generation has yet to be done through 5G services and commercial deployment is still ongoing, it is expected that the market for 5G services will start to boom by 2020.

REPORT INCLUDES:

A descriptive study with an impact analysis of the 5G telecommunication services in the North American region

Country-specific data and analysis for the U.S., Canada and Mexico with revenue forecasts through 2025

Evaluation of growth driving factors, such as increasing demand for ultra-low latency connectivity as well as increasing development of connected IoT devices strengthening the role of 5G services across the telecom market

Discussion on market opportunities, including ecosystem architecture, network planning and impact, service design and ROI impact, and 5G stakeholders and their key strategies

Profiles description of major 5G network providers and commercial partner companies

CHAPTER 2 SUMMARY AND HIGHLIGHTS

CHAPTER 3 MARKET OVERVIEW

Market Definition
4G vs. 5G
3G vs. 4G vs. 5G
5G Speed
Wireless Network Evolution
Latest Implementations and Trials of 5G Services
Initial Phase (Years: 2012-2014)
Current Phase (Years: 2018-2019)
Expected Phase (Years: 2020-2025)
Performance Criteria for 5G
Drivers of 5G Services
Increasing Demand for Broadband Services
Internet of Things (IoT)
Key Challenges in Rolling Out 5G
Small Cell Deployment Challenge
Fiber Backhaul
Spectrum
Device Availability
Coordination of Industry Verticals
Net Neutrality
The FCC's 5G Fast Plan for America
Making More Spectrum Available in the Marketplace

Updating Infrastructure Policy
Modernizing Outdated Regulations
5G Use Cases
High-Speed Broadband in the Home and Office
Quick Deployment/Temporary Connectivity
Industrial Automation
Remote Object Manipulation
Virtual Reality and Meeting
Key Market Developments

CHAPTER 4 MARKET BREAKDOWN BY APPLICATION

North American Market for 5G Services by Application
URLLC
mMTC
eMBB
FWA

CHAPTER 5 MARKET BREAKDOWN BY END USER

Introduction
Enterprises
Industry Verticals

CHAPTER 6 MARKET BREAKDOWN BY COUNTRY

Introduction
U.S.
Driving Factors
Key Players in Broadband
Canada
Mexico

CHAPTER 7 COMPANY PROFILES

Technology Providers
CISCO SYSTEMS INC.
ERICSSON
HUAWEI

INTEL CORP.
QUALCOMM
SAMSUNG ELECTRONICS
Telecom Service Providers
AT&T INC.
BT GROUP PLC
CHINA MOBILE
CHINA TELECOM CORP.
DEUTSCHE TELEKOM
KT CORP.
NEC CORP.
SK TELECOM
SPRINT CORP.
TELSTRA
T-MOBILE US, INC.
VERIZON COMMUNICATIONS INC.
VODAFONE GROUP

CHAPTER 8 APPENDIX: LIST OF ACRONYMS

List Of Tables

LIST OF TABLES

Summary Table: Regional Market for 5G Services in North America, by Application, Through 2025

Table 1: Key Difference between 3G, 4G and 5G Technologies

Table 2: Minimal Value of Parameters Used to Define 5G

Table 3: Key Strategies Used in the North American 5G Services Market, by Companies, December 2018-October 2019

Table 4: North American Market for 5G Services, by Application, Through 2025

Table 5: North American Market for 5G Services in URLLC Applications, by Country, Through 2025

Table 6: Extensive List of URLLC Applications, by Industry Vertical

Table 7: North American Market for 5G Services in mMTC Applications, by Country, Through 2025

Table 8: North American Market for 5G Services in eMBB Applications, by Country, Through 2025

Table 9: North American Market for 5G Services in FWA Applications, by Country, Through 2025

Table 10: FWA Compatibility for High Level Characteristics, by 5G Frequency

Table 11: North American Market for 5G Services, by End User, Through 2025

Table 12: North American Market for 5G Services, by Industry Vertical, Through 2025

Table 13: North American Market for 5G Services in the Energy and Utility Vertical, by Country, Through 2025

Table 14: North American Market for 5G Services in the Media and Entertainment Vertical, by Country, Through 2025

Table 15: North American Market for 5G Services in the Healthcare Vertical, by Country, Through 2025

Table 16: North American Market for 5G Services in the Transportation and Logistics Vertical, by Country, Through 2025

Table 17: North American Market for 5G Services in the Retail End Vertical, by Country, Through 2025

Table 18: North American Market for 5G Services in the Manufacturing Vertical, by Country, Through 2025

Table 19: North American Market for 5G Services, by Country, Through 2025

Table 20: Main Fixed Broadband Providers in the U.S.
