REPORT SCOPE

The scope of the report covers the overview and clear understanding of the global market scenario of acetic acid and its derivatives and analysis of global market trends, with market data for 2017, considered as the base year, 2018 as the estimate year, and forecast for 2023 with projection of CAGR during 2018 to 2023. Market data in value and volume is provided at global and regional levels for all major derivatives and their applications.

The report covers the discussion of technological, regulatory, and economic trends that are affecting the acetic acid market. The report has a review of the technological background of acetic acid, along with its production process, and identifies the current and emerging applications. It also explains the major drivers, restraints, opportunities, challenges and regional dynamics of the global acetic acid market; assesses current trends within the industry and presents the growth forecasts for the next five years. The regional acetic acid market is further segmented and forecasted for major countries such as U.S., Germany, China, U.K., China, India, etc.

The different derivatives of acetic acid which are considered in the report include vinyl acetate monomer (VAM), purified terephthalic acid (PTA), acetate esters, acetic anhydride and monochloroacetic acid (MCCA). The report further includes discussion of applications of these derivatives, such as paints and coatings, dyes and textiles, automotive, food and beverage, pharmaceuticals and cosmetics, agrochemicals, construction, animal feed, rubber, photography and other industries. The report concludes with a special focus on the competitive landscape which includes the key strategies adopted by the manufacturers, their market shares and detailed profiles of the major manufacturers, along with an overview, financial information, product portfolios of acetic acid products and their derivatives, key events and latest process

developments in the global acetic acid market.

REPORT INCLUDES:

An overview of the global market for acetic acid along with its derivatives market catering to different application segments

Country specific data and analysis for China, India, Japan, Taiwan, France, Germany, UK, U.S., Brazil and South Africa

Segmentation of the acetic acid derivatives market both in value and volumetric terms by end use applications and major geographical regions

Elaboration of technological, regulatory, and economic trends that are affecting the acetic acid market

An up-to-date analysis of recent developments and current global trends within the industry

Discussion of competitive landscape which includes the key strategies adopted by the manufacturers and their comprehensive company profiles, including Bp Plc, Celanese Corp., Dowdupont Inc., Mitsubishi Chemical Corp., Lyondellbasell Industries Holdings B.V. and Saudi International Petrochemical Co. (SIPCHEM)

CHAPTER 4 MARKET DYNAMICS

Key Factors Driving the Growth of the Acetic Acid Market

Increasing Demand for Vinyl Acetate Monomer (VAM) in Developing Countries

Increasing Demand for Acetic Acid as Vinegar

Increasing Demand for Packaged/Processed Food

Increasing Consumption of PET

Increasing Textile Industry

Key Factors Restraining the Growth of the Acetic Acid Market

Mature Market of Acetic Anhydride in Developed Regions

Saturation of VAM in Developed Regions
