Abstracts

REPORT SCOPE:

This report provides definitive estimates and forecasts of the global market, as well as a detailed analysis of the markets in specific regions and countries, ceramic material, industry segments, and applications and ongoing trends.

In this report the aerospace ceramics market is segmented by material, segment and application. Recently, thermal and structural applications have been at the center of research and development activities for aerospace ceramics. Carbon-based composites are gaining popularity in structural applications in the aerospace industry.

REPORT INCLUDES:

50 data tables and 29 additional tables

An up-to-date analysis of current and future global markets for aerospace ceramics

Analyses of the global market trends, with data from 2020, estimates for 2021, and projections of compound annual growth rates (CAGRs) through 2026

Highlights of the key enabling technologies for aerospace ceramics, major market dynamics (DROs), regulatory scenario, and impact analysis of COVID-19 on the progress of this market

Evaluation and forecast the aerospace ceramics market size (product sales in USD millions), and corresponding market share analysis by composition, application, end use segment, and geography

Country specific data and analysis for the U.S., Canada, France, UK, Germany, China, Japan, Australia, South Korea, and other important RoW countries

Assessment of industry supply networks, significant industry organizations, trends and opportunities, and value chain analysis of overall aerospace materials that affect this marketplace

Insight into the emerging aerospace materials, their historical background and applications, and review of recent developments in the industry

Company profiles descriptions of the major aerospace ceramics industry participants, including 3M , Corning Inc., Hexcel , Honeywell International , Oerlikon Metco , and Saint-Gobain

Contents

CHAPTER 1 INTRODUCTION

Study Goals and Objectives
Reasons for Doing This Study
Scope of Report
Information Sources
Methodology
Geographic Breakdown
Analyst's Credentials
BCC Custom Research
Related BCC Research Reports

CHAPTER 2 SUMMARY AND HIGHLIGHTS

CHAPTER 3 INDUSTRY TRENDS AND OPPORTUNITIES

Value Chain
Mineral Mining for Metals/Alloy Production
Industry and Key Research Organizations
Key Market Opportunities
Global Airplane Industry Trends

CHAPTER 4 MARKET BREAKDOWN BY COMPOSITION

Oxides
Alumina
Zirconia
Non-oxides
Silicon Carbide
Silicon Nitride
Composites

CHAPTER 5 MARKET BREAKDOWN BY APPLICATION

Thermal Applications
Electrical Applications
Structural Applications

Environmental Barrier Coatings

CHAPTER 6 MARKET BREAKDOWN BY SEGMENT

Commercial Aerospace Industry

Defense Aerospace Industry

Commercial Space Industry

CHAPTER 7 MARKET BREAKDOWN BY REGION

North America

U.S.

Canada

Europe

France

U.K.

Germany

Rest of Europe

Asia-Pacific

China

Japan

South Korea

Rest of APAC

Rest of the World

CHAPTER 8 EMERGING MATERIALS: BACKGROUND AND APPLICATIONS

Background

History

Aerospace Materials

Advanced Steel Alloys

Advanced Aluminum Alloys

Titanium and Its Alloys

Superalloys

Composite Materials: CFRPs

Advanced Composites

Advanced Adhesives

Applications

Commercial Passenger Aircraft and Commercial Transport Aircraft

General Aviation
Helicopters
Defense Industry and Government
Commercial Space Industry
Materials Not Considered in this Chapter

CHAPTER 9 COMPANY PROFILES

3M
ADVANCED COMPOSITES INC.
APPLIED CERAMICS
CERAMCO INC.
COMPOSITE HORIZON LLC
COORSTEK
CORNING INC.
HEXCEL
HONEYWELL INTERNATIONAL
INTERNATIONAL SYALONS
KYOCERA FINECERAMICS PRECISION GMBH
MCDANEL ADVANCED CERAMIC TECHNOLOGIES LLC.
OERLIKON METCO
SAINT-GOBAIN

CHAPTER 10 APPENDIX: ACRONYMS

List Of Tables

LIST OF TABLES

Summary Table A: Global Market for Aerospace Ceramics, by Composition, Through 2026

Summary Table B: Global Market for Aerospace Ceramics, by Region, Through 2026

Table 1: CFRP and Glass Fiber Recycling Process and Retained Tensile Strength

Table 2: Key Global Research Organizations in the Aerospace Ceramics Industry

Table 3: Global Market for Aerospace Ceramics, by Composition, Through 2026

Table 4: Properties of Some Key Ceramics

Table 5: Properties of Alumina, by Purity

Table 6: Zirconia Phase and Melting Point

Table 7: Properties of Yttrium Oxide Stabilized Zirconia

Table 8: Properties of Zirconia Toughened Alumina

Table 9: Key Carbide and Nitride Ceramics

Table 10: Silicon Carbide Ceramic Properties

Table 11: Silicon Nitride Ceramic Properties

Table 12: Different Silicon Carbide Ceramics and Their Properties

Table 13: Comparison between Metals and Composites

Table 14: GFRP Production, by Process/Component in Europe

Table 15: GFRP Production, by Country in Europe

Table 16: Leading Commercial Aircraft Models and Materials

Table 17: Leading Manufacturers of CF and Precursor

Table 18: Global Market for Aerospace Composites, by Region, Through 2026

Table 19: North American Market for Aerospace Composites, by Country, Through 2026

Table 20: European Market for Aerospace Composites, by Country, Through 2026

Table 21: Asia-Pacific Market for Aerospace Composites, by Country, Through 2026

Table 22: Rest of the World Market for Aerospace Composites, by Subregion, Through 2026

Table 23: Global Market for Aerospace Ceramics, by Application, Through 2026

Table 24: Aerospace Material Comparison

Table 25: Global Market for Aerospace Ceramics, by Segment, Through 2026

Table 26: Popular Aircraft with Composite Materials Components

Table 27: Aircrafts Composite Components and Composites

Table 28: Global Market for Aerospace Ceramics in Commercial Aerospace, by Region, Through 2026

Table 29: Key Performance Indicators of the Airline Industry, 2019-2021

Table 30: Top Aircraft Models in the Commercial Airline Industry and Their Deliveries,

2015-2020
