Report Scope:

Market reports are the ideal guide for anyone wishing to understand a specific market better in terms of revenues, technology innovations, distributors, and competitors. This report provides both an overview and country-level information for various categories and distribution shares, and explores the competitive landscape of the market.

Comprehensive data related to the market revenue, company share, and distribution share are included.

This report includes corporate-level profiles of key companies in the anesthesia and respiratory devices market that operate in the United States and other key countries, including a brief overview of each company, its business activities, and its hold or presence in the respective market. The selection of the companies is based on their operational presence and sales performance.

A list of products under development by key companies in which these products are being clinically investigated is also included.

The market has been segmented based on device type and geographic area. By type, the market has been segmented into anesthesia devices and consumables and respiratory devices and disposables. By geography, the market has been segregated as North America including the United States (U.S.), Canada, and Mexico; Europe including Germany, the United Kingdom (U.K.), France, and Italy; Asia-Pacific including China, India, Japan, Australia, New Zealand, South Korea, and South Africa; the Middle East, including the United Arab Emirates; and South America, including Brazil and Argentina.

This market research report includes anesthesia and respiratory devices segregated as below in categories based on their nature and usage.

Airway and anesthesia devices -

Airway management devices.

Anesthesia circuits.

Anesthesia masks.

Breathing filters.

Laryngoscope blades.

Laryngoscope handles.

Anesthesia machines -

Portable anesthesia delivery machines.

Stand-alone anesthesia delivery machines.

Anesthesia workstations.

Pain management devices.

Regional anesthesia disposables -

Epidural anesthesia disposables.

Peripheral anesthesia disposables.

Spinal anesthesia disposables.

Respiratory devices -

Humidifiers.

Nebulizers.

Oxygen concentrators.

Oxygen conservers.

Positive airway pressure devices.

Reusable resuscitators.

Ventilators

Respiratory disposables -

Aerosol masks.

Cardio-pulmonary resuscitation (CPR) barriers.

Nasal cannula.

Oxygen masks.

Patient interface.

Resuscitators.

Respiratory measurement devices -

Capnographs.

Spirometers.

Pulse oximeter systems.

Sleep apnea diagnostic systems -

Fixed polysomnography systems.

Portable polysomnography systems.

Report Includes -

56 data tables and 17 additional tables

An up-to-date review and analysis of the global markets for anesthesia and respiratory devices

Analyses of the global market trends, with historic sales data from 2019-2021, estimates for 2022, and projections of compound annual growth rates (CAGRs) through 2027

Highlights of the current and future potential in the market for anesthesia and respiratory devices, and areas to forecast this market into various segments and sub-segments

Estimation of the actual market size for anesthesia and respiratory devices, market growth forecast, and corresponding market share analysis by product type and geographic region

Country specific data and analysis for the U.S., Canada, Mexico, Japan, China, India, U.K., France, Germany, Italy, Spain, and other prominent economies

In-depth information on increasing investments on R&D activities, key technology issues, industry specific challenges, major types of end-user markets, and COVID-19 implications on the progress of this market

Key merger and acquisition deals, partnerships, collaborations and joint ventures as well as other strategic alliances in the global market for anesthesia and respiratory devices

Market share analysis of the key market participants, along with their research priorities, product portfolios, and competitive landscape

Company profiles of major players within the industry Abbott, B. Braun, Becton Dickson, Medtronic, Koninklijke Philips.
