

# Artificial Blood: Global Markets to 2028

<https://marketpublishers.com/r/A24C1A32E174EN.html>

Date: August 2023

Pages: 120

Price: US\$ 5,500.00 (Single User License)

ID: A24C1A32E174EN

## Abstracts

### Report Scope:

The scope of this study encompasses an investigation of the global market for artificial blood, focusing on various important aspects of the market, such as research and development, clinical trial outcomes, approval status, and the potential commercial demand for artificial blood products. The report includes a discussion of artificial oxygen carrier products. BCC Research analyzes each market segment and provides a forecast for six years. The current report analyzes the market's drivers, challenges, and opportunities. The report also covers market projections for 2028 and the market analysis for key market players. The report includes the company profiles of the key players with detailed information about their business segments, financials, product portfolios, and recent developments. The report also provides information on emerging technologies, the impact of COVID-19, product analysis, deals, and investment outlook.

### Report Includes:

41 tables

An overview of the global markets for artificial blood

Estimation of market size and analyses of global market trends, with data from 2020-2022, estimates for 2023, and projections of compound annual growth rates (CAGRs) through 2028

Highlights of the market potential and characterization of artificial blood market by product, application, and region

Examination of the key drivers and constraints that will shape the market and

discussion on the upcoming market opportunities and areas of focus to forecast the market into various segments and sub-segments

Coverage of recent advances, emerging technologies, and developments of the industry

Evaluation of key industry acquisitions and strategic alliances and market share analysis of the leading suppliers of the industry

Company profiles of major players within the industry, including Hemarina, VirTechBio, and NuvOx Pharma

## Contents

### **CHAPTER 1 INTRODUCTION**

Study Goals and Objectives  
Reasons for Doing This Study  
Scope of Report  
What's New in This Update?  
Methodology  
Information Sources  
Geographic Breakdown

### **CHAPTER 2 SUMMARY AND HIGHLIGHTS**

Market Overview

### **CHAPTER 3 MARKET OVERVIEW**

Introduction  
Is There a Problem with Human Blood?  
Emerging Needs for Artificial Blood  
Artificial Blood Will Be Useful in Dealing with the Risks of Infection  
Artificial Blood Will Help to Decrease the Load on the Donor Blood Supply  
Artificial Blood Is Needed to Deal with Unexpected Demands on the Blood System  
Hurdles in the Development of Artificial Blood Products  
Ideal Characteristics of Artificial Blood  
Artificial Blood Over Human Blood  
Applications  
Surgeries  
Emergency Resuscitation  
For Short-term Use  
Where More Effective Than Human Blood  
Rejections Due to Religious Beliefs  
Challenges in Artificial Blood Development

### **CHAPTER 4 MARKET DYNAMICS**

Drivers  
Increasing Demand for Blood Transfusions

Risks and Challenges Associated with Blood Transfusions  
Shortage of Blood Supply  
Barriers  
Low Rate of Product Approvals  
Product Acceptance  
Product Pricing  
Opportunities  
Impact of COVID-19

## **CHAPTER 5 ARTIFICIAL BLOOD BY SOURCE**

Introduction  
Artificial Blood Developed from Human Blood  
Artificial Blood Developed from Animal Blood  
Artificial Blood Developed Using Recombinant Technology  
Surface Modified Hemoglobin  
Cross-Linked Hemoglobin  
Polymerized Hemoglobin  
Encapsulation  
Genetically Engineered Recombinant Hemoglobin  
Natural Hemoglobin

## **CHAPTER 6 ARTIFICIAL BLOOD BY TYPE**

Introduction  
Perfluorocarbon Emulsions  
General Characteristics of Perfluorocarbons  
Emulsion Selection  
Historical Developments of Perfluorocarbon Emulsions  
First Generation of PFCs  
Second Generation of PFCs  
Third Generation of PFCs  
Hemoglobin-based Oxygen Carriers  
General Characteristics of HBOCs  
Historical Events: Hemoglobin Solutions

## **CHAPTER 7 MARKET ESTIMATION**

Introduction

Potential Market for Artificial Blood  
Artificial Blood Market, by Source  
Blood (Animal/Human)  
Synthetic Polymers  
Artificial Blood Market, by Type  
Hemoglobin-based Oxygen Carriers  
Perfluorocarbon-based Products  
Artificial Blood Market, by Region  
North America  
Europe  
Emerging Markets

## **CHAPTER 8 EMERGING TECHNOLOGIES AND DEVELOPMENTS**

Overview  
Emerging Technologies  
Nanocapsule Technology  
Stem Cells  
Other Ongoing Research for Blood Substitutes

## **CHAPTER 9 PRODUCT ANALYSIS**

Introduction  
Product Safety  
Product Effectiveness  
Product Cost  
Legal Implications  
Product Analysis of Some of the Products Under Development  
Hemopure  
HemO2life  
HemoTech  
NanO2 (DDFPe)  
Sanguinate  
Vidaphor  
Clinical Trials  
Product Description of Some of the Products in Preclinical and Early Phase I Stage  
ErythroMer  
Hemoglobin vesicles  
OxyVita

OxyBridge

## **CHAPTER 10 PATENT ANALYSIS**

Introduction  
FDA Regulation  
FDA Good Manufacturing Practices and Reporting  
Patent Analysis

## **CHAPTER 11 COMPETITIVE INTELLIGENCE**

Strategic Developments  
Competitive Analysis

## **CHAPTER 12 COMPANY PROFILES**

AURUM BIOSCIENCES  
ERYPHARM  
HEMOGLOBIN OXYGEN THERAPEUTICS LLC.  
HEMARINA  
KALOCYTE INC.  
NANO SANGUIS S.A  
NUVOX PHARMA LLC.  
PROLONG PHARMACEUTICALS, LLC  
RED C BIOTECH  
VIRTECH BIO

List of Tables

Summary Table : Global Market for Artificial Blood, Through 2028  
Table 1 : Historical Events Related to Blood Transfusion, 1628-2022  
Table 2 : Potential Benefits and Application Areas of Artificial Blood  
Table 3 : Average Number of Blood Units Required During Particular Medical Conditions  
Table 4 : The Challenges Associated with the Development of Artificial Blood  
Table 5 : Common Challenges to the Blood Transfusion Continuum in LMICs.  
Table 6 : Sources of Hemoglobin Molecules Used to Prepare Free Hemoglobin Solutions  
Table 7 : Pros and Cons of Artificial Blood Developed from Human Blood  
Table 8 : Pros and Cons of Artificial Blood Developed from Animal Blood  
Table 9 : Pros and Cons of Artificial Blood Developed from Recombinant Blood

Table 10 : Summary of Acellular Hb-Based Oxygen Carriers

Table 11 : Examples of Hemoglobin-based Oxygen Carrier Products and Approval Status

Table 12 : Potential Clinical Applications of Oxygen Carriers

Table 13 : Composition of PFC Emulsion-Based Artificial Blood Products

Table 14 : First Generation Perfluorocarbon Emulsions Used in Medicine and Biology

Table 15 : Comparative Study of Second-Generation PFCs

Table 16 : PFC Emulsion Products and Current Status

Table 17 : Comparative Study Between RBCs and HBOCs

Table 18 : HBOC Solutions Transfusion: Side Effects and Possible Causes

Table 19 : Examples of HBOC Products Developed, by Various Companies

Table 20 : Global Market for Artificial Blood, Through 2028

Table 21 : Current Cell Sources and Strategies for Ex-vivo RBC Generation

Table 22 : List of Discontinued Blood Substitutes

Table 23 : Hemopure: Raw Material and Method Overview

Table 24 : Hemopure: Product Characteristics

Table 25 : Hemopure: Advantages and Disadvantages

Table 26 : Summary of Clinical Trials of Hemopure (HBOC-201), 2023

Table 27 : HemO2life: Raw Material and Method

Table 28 : HemO2life: Advantages and Disadvantages

Table 29 : HemO2life: Product

Table 30 : Ex vivo, In vivo and Clinical Studies involving HemO2life (M101) Use

Table 31 : Hemotech: Raw Material and Method Overview

Table 32 : HemoTech: Advantages and Disadvantages

Table 33 : NanO2 (DDFPe): Raw Material and Method Overview

Table 34 : NanO2 (DDFPe): Advantages and Disadvantages

Table 35 : NanO2 (DDFPe): Clinical Trials, 2023

Table 36 : Sanguinate: Raw Material and Method Overview

Table 37 : Sanguinate: Advantages and Disadvantages

Table 38 : Sanguinate: Clinical Trials, 2023

Table 39 : Vidaphor: Raw Material and Method Overview

Table 40 : Vidaphor: Advantages and Disadvantages

Table 41 : Vidaphor: Clinical Trials, 2023

## I would like to order

Product name: Artificial Blood: Global Markets to 2028

Product link: <https://marketpublishers.com/r/A24C1A32E174EN.html>

Price: US\$ 5,500.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/A24C1A32E174EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:

First name:  
Last name:  
Email:  
Company:  
Address:  
City:  
Zip code:  
Country:  
Tel:  
Fax:
