Abstracts

Report Scope:

This report examines the current market and projected market potential for autoinjectors. It offers a detailed analysis of the competitive environment, market background, technology, drivers and restraints, and market growth trends. The report also includes market projections to 2026 and rankings for key market players. The report segments the market for autoinjectors based on the type of product, route of administration, therapy, end user and geography or region.

The market by type of product is further segmented into disposable and reusable autoinjectors. The market by route of administration is further segmented into intramuscular and subcutaneous. The market by therapy is further segmented into anaphylaxis, rheumatoid arthritis, multiple sclerosis, diabetes, and others. The market by end user is further segmented into home care settings, hospitals and clinics, and ambulatory care settings.

The market by region is segmented into North America, Europe, the Asia-Pacific region, and the Rest of the World. Analyses of major countries are covered in the report. For market estimates, data is provided for 2020 as the base year, 2021 and forecast through year-end 2026. Estimated values used are based on autoinjector manufacturers' total revenues. Projected and forecasted revenue values are in constant U.S. dollars that have not been adjusted for inflation.

Report Includes:

41 data tables and 25 additional tables

Detailed review of the global market for autoinjectors within the medical devices

industry

Analyses of the global market trends, with data from 2019-2020, estimates for 2021, and projections of compound annual growth rates (CAGRs) through 2026

Evaluation and forecast the overall autoinjectors market size in dollar value term, and corresponding market share analysis by product type, route of administration, therapy, end user, and region

Discussion of key market dynamics (DROs), technology advancements, regulatory scenario, pricing analysis, and competitive environment of the vendor companies

Country specific data and market value analysis for the U.S., Canada, U.K., France, Germany, Italy, Spain, Japan, China and India

Insight into the recent industry strategies, key M&A deals, company competitive landscape and value share analysis of the key players operating in global autoinjectors market

Highlights of the market potential for autoinjectors, opportunities and gaps estimating current and future demand, and impact of COVID-19 on the progress of this market

Discussion of competitive intensity among the leading market participants, their global rankings and recent developments in the autoinjector market

Company profile descriptions of the leading manufacturers and suppliers of autoinjector devices including AbbVie Inc., Amgen Inc., Becton, Dickinson and Co., Eli Lilly, GlaxoSmithKline PLC, Johnson & Johnson, Merck KGaA, and Teva Pharmaceutical
