

Automotive Battery Management System: Global Markets

<https://marketpublishers.com/r/AA8B4C8ED67EN.html>

Date: December 2018

Pages: 143

Price: US\$ 1,375.00 (Single User License)

ID: AA8B4C8ED67EN

Abstracts

Report Scope:

The scope of the report includes sizing of the automotive battery management system market and an analysis of global market trends, with market data for 2017, considering as the base year, 2018 as the estimate year and forecast for 2023 with projection of CAGR during 2018 to 2023. Market data is provided in terms of number of units and value at global and regional levels as well as select countries for battery management systems by major battery types and type of automobile. Estimated units are number of battery management systems installed by automotive manufacturers in a particular year; estimated values are values of installed units calculated from estimated number of units and price. Projected and forecasted values are in constant United States dollars, unadjusted for inflation.

The report focuses on assessment of automotive battery management systems and a detailed analysis of original equipment manufacturers and the related system providers. Market dynamics such as drivers, restraints, opportunities and challenges are also discussed in the report. The study forecasts the market value of the automotive battery management system market for key battery types like lithium ion, nickel metal hydride and other battery types including types of lead acid battery. The report also forecasts the market value of the automotive battery management system market for major automobile types like hybrid electric vehicles, plug-in hybrid electric vehicles and battery electric vehicles. With this report, automakers, tier-one suppliers, battery management solution providers, battery management system integrators and existing established suppliers will be guided when adopting suitable business strategies to retain their market positions. This data will also prove useful when planning actions to take advantage of opportunities to increase revenues and profitability by capitalizing on the

growing automotive battery management system market. Values presented in the forecast tables represent the values of automotive battery management systems as purchased from suppliers by OEM companies, excluding the cost of marketing, assembling and distribution. In this report, the term “revenue” is equivalent to and is used interchangeably with purchase, demand and sales.

Micro hybrid vehicles that typically use 12V to 24V lead acid battery for the start/stop function are excluded from the report scope. As these vehicles use simple lead acid batteries that do not require a complex battery management system. Also, the automobiles considered in the report are passenger cars and SUVs, along with light commercial vehicles such as vans. Hybrid and electric buses, trucks and heavy commercial vehicles are excluded from the report scope as they are highly concentrated in a few select countries.

Report Includes:

60 data tables and 45 additional tables

An overview of the global market and technologies for automotive battery management system

Analyses of market trends, with data from 2017, 2018, and projections of compound annual growth rates (CAGRs) through 2023

Description of properties of battery management system such as battery status supervision, battery operating parameter control, cell balancing in battery pack and damage protection

Insights of advancements in battery technology and government targets to include green vehicles in state fleets and public transport

Information on stringent safety norms for battery management system

Comprehensive company profiles of major market players of the industry, including A123 Systems LLC, Analog Devices, Inc. (Linear Technology Corp.), Continental AG, Denso Corp., and Infineon Technologies AG

Contents

CHAPTER 1 INTRODUCTION

Definition and Background
Study Goals and Objectives
Reasons for Doing the Study
Scope of Report
Methodology
Geographic Breakdown
Analyst's Credentials
BCC Custom Research
Related BCC Research Reports

CHAPTER 2 SUMMARY AND HIGHLIGHTS

CHAPTER 3 MARKET OVERVIEW

Introduction
Hybrid Electric and Battery Electric Vehicles
Hybrid Electric Vehicles
Hybrid Electric Drivetrains
Battery Electric Vehicles
Automotive Batteries
Battery Safety
Battery Management System Topology
Battery Management System Functions
Advancements in Automotive Battery Management System

CHAPTER 4 MARKET DYNAMICS

Introduction
Key Market Growth Drivers
Rising Number of Alternative Fuel Vehicles Using Battery Storage
Tax Incentives and Regulatory Assistance for Plug-in Hybrid Electric and Battery Electric Vehicles
Decreasing Battery Prices
Rapidly Growing Charging Infrastructure
Key Market Growth Restraints

High Capital Cost Compared to Conventional IC Engine Vehicles
Key Market Growth Opportunities
Development of Advanced Battery Management Systems
State Targets to Minimize the Use of Fossil Fuels and Stringent Emission Norms
Key Market Growth Challenges
Lack of Charging Infrastructure and Power Supply Challenges
Technical Challenges in Designing Completely Reliable Battery Management Systems

CHAPTER 5 GLOBAL AUTOMOTIVE BATTERY MANAGEMENT SYSTEM MARKET BY TYPE OF VEHICLE

Overview
Mild Hybrid Electric Vehicles
Full Hybrid Electric Vehicles
Plug-in Hybrid Electric Vehicles (PHEVs)
Battery Electric Vehicle (BEV)

CHAPTER 6 GLOBAL AUTOMOTIVE BATTERY MANAGEMENT SYSTEM MARKET BY REGION

Introduction
North America
United States
Rest of North America
Asia-Pacific
Japan
China
Rest of Asia-Pacific
Europe
Rest of the World

CHAPTER 7 GLOBAL AUTOMOTIVE BATTERY MANAGEMENT SYSTEM MARKET BY BATTERY TYPE

Overview
Lithium Ion Batteries
Nickel Metal Hydride Batteries
Other Batteries

CHAPTER 8 COMPETITIVE LANDSCAPE

Industry Overview

Geographic Dominance of Suppliers within the Automotive Battery Management System Market

Market Share Analysis: Battery Management System IC Manufacturers

Market Share Analysis: OEMs and Battery Manufacturers with In-house Battery Management System Manufacturing Capabilities

Market Strategy Analysis

Key Market Developments

Contracts and Agreements

New Product Developments

Mergers and Acquisitions

Expansions

Other Developments

CHAPTER 9 COMPANY PROFILES

A123 SYSTEMS LLC

ANALOG DEVICES, INC. (LINEAR TECHNOLOGY CORP.)

Recent Developments

BYD CO. LTD.

CALSONIC KANSEI CORP.

Recent Developments

CONTINENTAL AG

Products Offered

Financials

DENSO CORP.

Products Offered

Financials

E4V

EBERSPAECHER VECTURE, INC.

Recent Developments

ELITHION, INC.

EWERT ENERGY SYSTEMS, INC.

HITACHI AUTOMOTIVE SYSTEMS LTD.

Products Offered

Financials

Recent Developments

HUIZHOU E-POWER ELECTRONICS CO. LTD.

HYUNDAI KEFICO CORP.

INFINEON TECHNOLOGIES AG

Products Offered

Financials

Recent Developments

JOHNSON MATTHEY BATTERY SYSTEMS ENGINEERING LTD.

Recent Developments

KOKAM CO. LTD.

Recent Developments

LG CHEM, LTD.

LITHIUM BALANCE A/S

Recent Developments

LITHIUM WERKS BV

Recent Developments

MITSUBISHI ELECTRIC CORP.

NAVITAS SYSTEMS LLC

NUVATION ENERGY

Recent Developments

NXP SEMICONDUCTORS NV

Products Offered
