Abstracts

This report segments the automotive cybersecurity market by offerings, deployment, security, application, vehicle type, and propulsion. It segments the market into four regions: North America, Europe, Asia-Pacific, and the Rest of the World (which includes South America, and the Middle East and Africa). It further analyzes the market by major countries, such as the U.S., Canada, China, Japan, India, Germany, France, and the U.K.

The study include company profiles of leading companies which include financials, product portfolios, and recent developments. However, the financial information is provided only for public companies. The report also analyzes emerging technologies, patents, the competitive landscape with market rankings for and strategies of leading companies. It also includes a chapter on environmental, social and governance (ESG) initiatives.

The report uses tables and figures to illustrate historical, current, and future market scenarios. In this report, 2024 is considered the base year, 2025 is an estimated year, and market values are projected through 2030. All market values are nominal and in U.S. dollar (\$) millions.

Report Includes

An overview of the current and future global markets for automotive cybersecurity

In-depth analysis of global market trends, featuring historical revenue data for 2024, estimated figures for 2025, as well as forecasts for 2026, 2029. This analysis includes projections of compound annual growth rates (CAGRs) through 2030

Estimates of the size and revenue prospects of the global market, along with a market share analysis by offering, deployment, security type, application, vehicle type, propulsion and region

Facts and figures pertaining to the market dynamics, technical advances, regulations, and the impact of macroeconomic factors

An analysis of patents, emerging trends and developments in the industry

Analysis of the industry structure, including companies' market shares and rankings, strategic alliances, M&A activity and a venture funding outlook

Overview of sustainability trends and ESG developments, with emphasis on consumer attitudes, and the ESG scores and practices of leading companies

Company profiles of leading players in the industry

Summary:

This report presents an in-depth analysis of the global automotive cybersecurity market from 2025 through 2030. It provides market segmentation based on the offerings, deployment, security, application, vehicle type, propulsion and region. The report also provides a detailed preview of the leading companies in the market with insights such as company overview, financial information, product portfolio and key developments.

This report segments the automotive cybersecurity market by offerings, deployment, security, application, vehicle type, and propulsion. It segments the market into four regions: North America, Europe, Asia-Pacific, and the Rest of the World (which includes South America, and the Middle East and Africa). It further analyzes the market by major countries, such as the U.S., Canada, China, Japan, India, Germany, France, and the U.K.

The study include company profiles of leading companies which include financials, product portfolios, and recent developments. However, the financial information is provided only for public companies. The report also analyzes emerging technologies, patents, the competitive landscape with market rankings for and strategies of leading companies. It also includes a chapter on environmental, social and governance (ESG)

initiatives.

The report uses tables and figures to illustrate historical, current, and future market scenarios. In this report, 2024 is considered the base year, 2025 is an estimated year, and market values are projected through 2030. All market values are nominal and in U.S. dollar (\$) millions.

Contents

CHAPTER 1 EXECUTIVE SUMMARY

Market Outlook
Scope of Report
Market Summary
Market Dynamics and Growth Factors
Future Trends and Developments
Segmental Analysis
Regional Insights and Emerging Markets
Conclusion

CHAPTER 2 MARKET OVERVIEW

Market Overview and Future Scenarios
Porter's Five Forces Analysis
Bargaining Power of Buyers
Bargaining Power of Suppliers
Potential for New Entrants to the Market
Level of Competition in the Industry
Threat of Substitutes
Patent Analysis
Overview
Key Patents
Findings
Regulations and Standards
UN Regulations No. 155 and 156
NHTSA Cybersecurity Best Practices
Automotive Information Sharing and Analysis Center (Auto-ISAC) Guidelines
General Data Protection Regulation (GDPR)
U.K. Code of Practice for Vehicle Cyber Security
GB/T 38628-2020
AIS 155
Japan Automotive Security Promote Association (JASPAR) Security Working Group

CHAPTER 3 MARKET DYNAMICS

Overview

Market Drivers

Rising Incidence of Automotive Cyberattacks

Adoption of AI in the Automotive Industry

Market Restraints/Challenges

Lack of Skilled Labor

Legacy Systems Integration

Market Opportunities

Focus on Enhancing Vehicle Safety

Expansion of V2X Technology

CHAPTER 4 EMERGING TECHNOLOGIES AND DEVELOPMENTS

Overview

Emerging Technologies/Developments

Secure OTA Update

Intrusion Detection and Prevention Systems (IDPS)

ADAS

SDV

CHAPTER 5 MARKET SEGMENT ANALYSIS

Segmentation Breakdown

Global Automotive Cybersecurity Market, by Offering

Key Takeaways

Hardware

Software

Services

Global Automotive Cybersecurity Market, by Deployment

Takeaways

In-vehicle

External

Global Automotive Cybersecurity Market, by Security Type

Takeaways

Network Security

Endpoint Security

Application Security

Cloud Security

Other Types of Automotive Cybersecurity

Global Automotive Cybersecurity Market, by Application

Takeaways

ADAS and Safety

Telematics

Infotainment

Powertrain

Body Control and Comfort

Other Automotive Security Applications

Global Automotive Cybersecurity Market, by Vehicle Type

Takeaways

Passenger Vehicles

Commercial Vehicles

Global Automotive Cybersecurity Market, by Propulsion Type

Takeaways

Internal Combustion Engines

EVs

Geographic Breakdown

Global Automotive Cybersecurity Market, by Region

Takeaways

North America

Europe

Asia-Pacific

Rest of the World

CHAPTER 6 COMPETITIVE LANDSCAPE

Overview

Market Rankings for Leading Company

Continental AG (Aumovio SE)

Harman International

Robert Bosch GmbH

Denso Corp.

NXP Semiconductors

Product Mapping Analysis

Recent Developments

CHAPTER 7 SUSTAINABILITY IN THE AUTOMOTIVE CYBERSECURITY MARKET: ESG PERSPECTIVE

ESG Developments

Environmental Impact
Social Impact
Governance Impact
Status of ESG in the Automotive Cybersecurity Market
Consumer Attitudes Towards ESG
Case Studies: Examples of Successful Implementation of ESG
NXP Semiconductors
Infineon Technologies
Concluding Remarks from BCC Research

CHAPTER 8 APPENDIX

Methodology
Sources
Abbreviations
Company Profiles
APTIV
AUMOVIO SE
CYBELLUM
DENSO CORP.
ETAS
HARMAN INTERNATIONAL
INFINEON TECHNOLOGIES AG
NXP SEMICONDUCTORS
RENESAS ELECTRONICS CORP.
VICONE INC.
Emerging Companies and Startups
