Abstracts

Report Scope:

This report studies the global market for wound care biologics. It describes different types of wound care biologics, including cellular and/or tissue-based products (CTPs), skin substitutes and topical agents, and their current and historical market revenues.

Skin substitutes are categorized into acellular and cellular composition, as well as biologic and bioengineered materials. Biologic skin substitutes are categorized into allografts and acellular animal derived tissue-based products or xenografts. Bioengineered skin substitutes are categorized into cellular and acellular or biosynthetic.

This report also studies applications for biologics in the care of chronic wounds and acute wounds. The market for chronic wounds includes venous leg ulcers, diabetic foot ulcers, pressure ulcers, and arterial and other ulcers. The market for acute wounds includes surgical and traumatic wounds and burns. An in-depth analysis of the market includes historical data and market projections based on sales by product type, application, end user and region. The report provides discusses the competitive landscape, key competitors and their respective market shares.

The scope of this report does not include biologics used for soft tissue reinforcement during plastic and reconstructive surgery. Such surgery is performed to treat structures of the human body that are affected aesthetically or functionally due to defects and abnormalities.

Report Includes:

23 data tables and 44 additional tables

An up-to-date overview of the global markets for wound care biologics within the industry

Analyses of the global market trends, with historic revenue (sales) data for 2019-2021, and projections of compound annual growth rates (CAGRs) through 2026

Characterization and quantification of the market potential for wound care biologics, and market size estimation and forecast by product type, composition, application, end user vertical, and geographic region

Description of the integumentary system, wound classifications and wound healing process, and discussion on ECM composition and its importance in skin wound healing

Insight into the recent government regulations, reimbursement procedures, technological updates, 510 (K) approvals, and active clinical trials in wound care biologics that can shape the future marketplace

In-depth information (facts and figures) concerning market drivers, challenges and issues, and other macroeconomic forces influencing the progress of this market

Market share analysis of the key companies operating in the industry and Porter's five forces analysis and their impact on the global market for wound care biologics

Descriptive company profiles of major global players, including AlloSource, Bioventus LLC, BioTissue Inc., Integra LifeSciences Corp., MiMedx, Stryker Corp., and Smith & Nephew, Plc.

Contents

CHAPTER 1 INTRODUCTION

Study Goals and Objectives
Scope of Report
Methodology and Information Sources
Geographic Breakdown
Analyst's Credentials
BCC Custom Research
Related BCC Research Reports

CHAPTER 2 SUMMARY AND HIGHLIGHTS

CHAPTER 3 MARKET AND TECHNOLOGY BACKGROUND

Integumentary System
Wound Classifications
Wound Healing Process
Hemostasis
Inflammation
Proliferation
Maturation or Remodeling
ECM Composition and Its Importance in Skin Wound Healing
Biological Therapies for Wound Care
Autologous
Allogenic
Heterologous/Xenogeneic

CHAPTER 4 MARKET DYNAMICS

Market Drivers
Favorable Global Demographics and Aging Population
Greater Incidence of Non-Communicable/Chronic Diseases
Increasing Acceptance of Regenerative Technologies and Protocols for Complex Wound Treatment
Increasing Technology Innovations and New Product Developments
Improving Reimbursement Environment
Market Restraints

High Cost
Reimbursement and Pricing Issues
Changing Regulatory Landscape
Market Opportunities
Market Consolidation
Underpenetrated Markets Outside the U.S.
Impact of COVID-19 on the Global Market for Wound Biologics

CHAPTER 5 MARKET BREAKDOWN BY TECHNOLOGY TYPE

Overview
CTPs or Skin Substitutes
Topical Agents
Growth Factors
Global Market for Wound Biologics by Product Type
CTPs or Skin Substitute Types
Acellular
Cellular
Global Market for CTPs/Skin Substitutes, by Composition Type
Based on Type of Material
Biologic Skin Substitutes/Biologic Grafts
Bioengineered Skin Substitutes/Bioengineered Grafts
Global Market for CTPs/Skin Substitutes by Material
Global Market for Biologic CTPs/Skin Substitutes by Tissue Source
Global Market for Bioengineered Skin Substitutes by Composition Type

CHAPTER 6 MARKET BREAKDOWN BY APPLICATION

Chronic Wounds
Common Types of Chronic Wounds
Acute Wounds
Common Types of Acute Wounds
Global Market for Wound Care Biologics by Wound Type
Global Market for Chronic Wound Care Biologics by Wound Type
Global Market for Acute Wound Care Biologics by Wound Type

CHAPTER 7 MARKET BREAKDOWN BY REGION

Global Market for Wound Care Biologics by Region

North America
Market Analysis
Market Revenue
Europe
Market Analysis
Market Revenue
Asia-Pacific
Market Analysis
Market Revenue
Rest of World
Market Analysis
Market Revenue

CHAPTER 8 MARKET BREAKDOWN BY END USER

Hospital Outpatient Wound Centers
Inpatient Settings/Hospitals
Office or Clinic Settings
Global Market for Wound Care Biologics by End User

CHAPTER 9 REGULATORY STRUCTURE AND NEW PRODUCT DEVELOPMENTS

FDA Regulatory Review and Approval Process Governing CTPs or Skin Substitutes
Premarket Approval
510(k) Clearance
Biologics License Application
361 Human Cells, Tissues and Cellular and Tissue-Based Products (HCT/Ps)
Humanitarian Device Exemption
Coverage and Reimbursement
Medicare Coverage
Medicaid
Private Payers
FDA Approvals for Wound Care Biologics by Approval Type
510 (K) Approvals
BLA Approvals
Wound Care Biologics in Clinical Development
Products
Applications

CHAPTER 10 COMPETITIVE LANDSCAPE

Overview

Market Shares of Leading Companies

Key Market Players by Product Type

Allografts

Acellular Animal Derived Tissue-Based Products/Xenografts

Cellular Bioengineered

Acellular Bioengineered/Biosynthetic

Topical Agents

Porter's Five Forces Analysis

CHAPTER 11 COMPANY PROFILES

3M

ALLERGAN AESTHETICS

ALLOSOURCE

AROA BIOSURGERY LTD.

AZIYO BIOLOGICS

BIOTISSUE INC.

BIOVENTUS LLC

CONVATEC GROUP PLC

COOK BIOTECH INC.

INTEGRA LIFESCIENCES HOLDINGS CORP.

MALLINCKRODT PLC

MIMEDX

MTF BIOLOGICS

ORGANOGENESIS HOLDINGS INC.

SKYE BIOLOGICS HOLDINGS, LLC

SMITH & NEPHEW, PLC

STIMLABS LLC

STRYKER CORP.

ZIMMER BIOMET HOLDINGS INC.

CHAPTER 12 APPENDIX: ACRONYMS

List Of Tables

LIST OF TABLES

Summary Table B: Global Market for CTPs/Skin Substitutes, by Composition Type, Through 2026

Summary Table A: Global Market for Wound Care Biologics, by Product Type, Through 2026

Table 1: ECM Components and Their Roles in Wound Healing

Table 2: Number and Distribution of Persons Age 60+, by Region, 2019 and 2050

Table 3: Global Prevalence of Diabetes, by Population Segment, Through 2045

Table 4: Age-Adjusted Comparative Prevalence of Diabetes, by Country, 2010–2045

Table 5: Recent Deals and Acquisitions in Wound Biologics Market, 2017–Jan. 2022
