## Abstracts

### Report Scope:

In this report, the market has been segmented based on organization size, component, type, application and geography. The report provides an overview of the global blockchain in telecom market and analyzes market trends. Using 2020 as the base year, the report provides estimated market data for the forecast period, 2021-2026. Market values have been estimated based on the total revenue of blockchain solution providers.

This report covers the market for blockchain in telecom across different regions. It also highlights major trends and challenges that affect the market and the vendor landscape. This report estimates the global market for blockchain in telecom in 2021 and provides projections for the expected market size through 2026.

The scope of the study includes blockchain development platforms and services associated with the platform. However, cryptocurrency wallets and mobile applications developed in the blockchain platform, predeveloped blockchain applications and physical services have been excluded from the study.

### Report Includes:

115 tables

An overview of the global market for blockchain in telecom sector

Estimation of the market size and analyses of global market trends, with data from 2020, 2021, estimates for 2022, 2024, and projections of compound annual growth rates (CAGRs) through 2026

Characterization and quantification of market potential for blockchain in telecom sector by organization size, providers, component, type, application, and region

Coverage of evolution, origin, and development of blockchain; information about history of blockchain in telecom sector; discussion on how blockchain used in the telecom industry and description of blockchain-related use cases in telecom and their success stories

Identification of market drivers, restraints and other forces impacting the global market and evaluation of current market trends, market size, market forecast, and technological advancements within the industry

Market share analysis of the key companies of the industry and coverage of events like mergers & acquisitions, joint ventures, collaborations or partnerships, and other key market strategies

Company profiles of major players including Accenture, Amazon.com, BigchainDB GmbH, BlockCypher, ClearX Blockchain Technologies Ltd., Huawei Technologies Co. Ltd., IBM, Infosys Ltd., Intel Corp., Microsoft Corp., and Oracle Corp.,

Market Drivers

Rising Roaming Fraud Issues, Telecom Sectors

Rising Adoption of AI and IoT in Telecom Sectors

Growing Adoption, Digital Wallets

Market Restraints

Lack of Standards for Telecom Industries

Unsettled Regulatory and Compliance Environment

Market Opportunities

Telecommunications Sector Gains Growth Opportunity from 5G

Increasing Acceptance of Blockchain Technology for Payments and Smart Contracts

Rising Number of Blockchain Start-ups

Impact of COVID-19 on the Market for Blockchain in Telecom

Key Areas Impacted by COVID-19 Outbreak, Telecom Industry

Key Initiatives, COVID-19
