## Abstracts

### Report Scope:

This report will cover the breathable films industry. Definitive and detailed estimates and forecasts of the global market are provided, followed by a detailed analysis of the regions, film types, materials, end uses and on-going trends.

This report covers the technological, economic and business considerations of the breathable films industry, with analyses and forecasts provided for global markets. Included in the report are descriptions of market forces relevant to the breathable films industry and their areas of application.

Global markets are presented for the size of breathable films segments, along with growth forecasts through 2026. Estimates of sales value are based on the price in the supply chain. Market-driving forces and industry structure are examined. International aspects are analyzed for all global regions and types of breathable films. Profiles of major global manufacturers are presented.

This report considers the impact of COVID-19. In 2020, the growth rate of every industry around the world was impacted by the pandemic. In addition to taking measures to lock down their respective countries to contain the spread of the coronavirus, especially in affected cities, various governments around the world are also taking the measures necessary to contain the economic slowdown.

The breathable films market is further segmented based on its film types: microporous and non-porous/monolithic. The market can be segmented by material as polyethylene, polypropylene, polyurethane and others. The market is also segmented into end uses like pharmaceuticals, medical, personal care and hygiene, food and beverages, apparel and clothing, building and construction and others.

## Report Includes:

173 data tables and 16 additional tables

An overview of the global breathable films market

Analyses of the global market trends, with data from 2020, estimates for 2021 and projections of compound annual growth rates (CAGRs) through 2026

Evaluation of the current market size both in terms of volume and value and market forecast, and technological advancements within the industry

Information on cast and blown film extrusion process for breathable films and other major manufacturing processes

Market share analysis of the breathable films by film type, material, end use and geography; and identification of market drivers, restraints and other forces impacting the global market

Coverage of product portfolios of PE breathable films producers, applications of polyurethane breathable films, and description of breathable films apparent production capacity

Market share analysis of the key companies of the industry and coverage of their proprietary technologies, and other key market strategies

Comprehensive company profiles of the leading players, including Berry Global Inc., Covestro AG, DuPont, Kimberley Clark, LyondellBasell, RKW Group, Omya AG, and Mitsui Chemicals Co., Ltd.

### CHAPTER 2 SUMMARY AND HIGHLIGHTS

### CHAPTER 3 MARKET AND TECHNOLOGY BACKGROUND

Manufacturing Process

### CHAPTER 4 MARKET TRENDS

Drivers  
Increase in Demand for Diapers and Incontinence Products  
High Absorbency and Convenience of Breathable Films Lead to Growing Demand for Micro-Porous Breathable Films in the Medical Industry  
Increasing Use of Hospital Disposables  
Exponential Growth in the Pharmaceuticals Industry  
Restraints  
Low Degradation of Polyethylene Films  
High Regulatory Scrutiny of the Industry  
Trends  
More Focus on Biodegradable Breathable Films with Organic Parogens  
Increase in Preference of Manufacturers from Cast to Blow Film Extrusion  
Opportunities  
Manufacturers to Capitalize on Growth of Opportunities in Biodegradable Breathable Films for Sanitary Napkins  
COVID-19 Impact on Breathable Films  
Impact on Medical, Pharmaceutical, Personal Care and Hygiene

Impact of Use of Breathable Films in the Construction and Apparel Industries

## **CHAPTER 5 BREATHABLE FILMS MARKET BREAKDOWN BY MATERIAL**

Introduction

Polyethylene

Product Portfolios of PE Breathable Films Producers

Polypropylene

Polyurethane

Applications of Polyurethane Breathable Films
