Abstracts

Report Scope:

This report provides a comprehensive analysis of cannabis packaging based on three categories: material, cannabis form, and region. The materials are segmented into major types: plastic, paper and paperboard, glass, metal, and others. A detailed estimate and forecast of the global market by cannabis form are provided as dry cannabis, concentrates, edibles, and others. The report also examines and quantifies the cannabis packaging market based on regions. Further, the report analyzes the industry structure, market dynamics, and supply chain analysis of the cannabis packaging industry.

The report estimates the global market for cannabis packaging in 2021 and provides projections for the expected market size through 2027. Using 2021 as the base year, the report provides estimated market data for the forecast period of 2022-2027. Revenue forecasts for this period are segmented based on material, cannabis form, and geography. Market values have been estimated based on the total revenue of cannabis packaging solution providers.
