Abstracts

REPORT SCOPE:

The scope of this report is broad and covers various types of products available in the cell viability assays market and potential application sectors in various industries. The cell viability assays market is broken down by product into instruments and consumables. Revenue forecasts from 2018 to 2023 are given for each product, application, cell type and end user, with estimated valued derived from the revenues of manufacturers. Revenue generated from the installation and maintenance of instruments has been excluded from the report.

The report also includes a discussion of the major players in each regional cell viability assays market. Further, it explains the major drivers and regional dynamics of the global market and current trends within the industry.

The report concludes with a special focus on the vendor landscape and includes detailed profiles of the major players in the global cell viability assays market.

REPORT INCLUDES:

95 data tables and 66 additional tables

An overview of the global cell viability assays market

Analyses of global market trends, with data from 2017, 2018, and projections of compound annual growth rates (CAGRs) through 2023

Information on various type of products available in the cell viability assays market and potential applications across various industries

Examination of the main product applications and markets in an effort to help companies and investors prioritize product opportunities and strategic movements

Evaluation of key industry and market trends, and quantification of the main market segments, allowing the reader to better understand the industry's structure and changes occurring within it

Coverage of innovations and development in stem cell research, toxicity testing and tissue engineering

Insight into regulatory framework and investment analysis in the healthcare sector

Detailed profiles of the major players of the industry, including Bio-Rad Laboratories Inc., Danaher Corp., GE Healthcare, Merck KGaA and R&D Systems Inc.

Contents

CHAPTER 1 INTRODUCTION

Study Goals and Objectives
Reasons for Doing This Study
Scope of Report
Information Sources
Methodology
Geographic Breakdown
Analyst's Credentials
BCC Custom Research
Related BCC Research Reports

CHAPTER 2 SUMMARY AND HIGHLIGHTS

CHAPTER 3 MARKET OVERVIEW

Introduction
Market Potential
Market Size and Growth
Consumer Types and Product Success
Competitor Pricing
Regulatory Framework
United States
European Union
China
India
Japan
Australia
Brazil
Russia
Investment Analysis
Industry Growth Drivers
Increasing Focus on Development of Cell-Based Therapeutics and Potential Biomarkers
Growing Prevalence and Incidence of Infectious and Chronic Diseases
Increasing Demand for Cell-Based Assays in Research and Development
Increasing Emphasis on Stem Cell Research

CHAPTER 4 CELL VIABILITY ASSAYS MARKET BY PRODUCT

Instruments

Automated Cell Counters

Flow Cytometers

Spectrophotometers

Cell Imaging and Analysis Systems

Consumables

Reagents

Assay Kits

Microplates

CHAPTER 5 MARKET BREAKDOWN BY CELL TYPE

Human Cells

Assays to Measure Viable Cells

Benefits of Protease Marker Assays

Advantages of ATP Assays

ATP Cell Viability Assay for Measuring Intrinsic Radio-Sensitivity in Cervical Cancer

Animal Cells

Advantages of Viability Assays for Animals

Microbial Cells

Cell Viability Assay to Determine the Cytotoxic Effects by Microbes in Water

Imaging Microbial Viability Assays

Imaging Biofilm Viability Assays

Bacterial Viability Assays for Flow Cytometry

Viability Detection of Foodborne Microbial Pathogens

Global Estimates of Foodborne Diseases

CHAPTER 6 MARKET BREAKDOWN BY APPLICATION

Clinical and Diagnostic Applications

Drug Discovery and Development

Stem Cell Research

Potential Benefits of Stem Cell Research

Basic Research

Other Applications (e.g., Toxicity Testing, Tissue Engineering)

Toxicity Testing

Tissue Engineering

CHAPTER 7 MARKET BREAKDOWN BY END USER

Academic and Research Institutions

Market Drivers

Pharmaceutical and Biotechnology Companies

UV-Spectrophotometers for Drug Stability Testing

Market Drivers

Hospitals and Diagnostic Laboratories

Cell Viability Assays

Assays and Their Substrates

Technological Advancements and Innovations

XTT Formazan Assay to Detect Cell Viability Inhibits HIV Type 1 Infection

Viability Assay to Identify Biologically-Relevant Malaria Transmission- Blocking Drugs

Assays for Diagnostic Tests for Malaria

Non-Blood Based Assays

Blood-Based Assays

Other End Users

Cancer Diagnosis and Prognosis

CHAPTER 8 MARKET BREAKDOWN BY REGION

North America

United States

Canada

Europe

United Kingdom

France

Germany

Spain

Rest of Europe

Asia-Pacific Region

China

Japan

India

Australia

Rest of Asia-Pacific

Rest of the World

Latin America

Middle East and Africa

CHAPTER 9 CELL VIABILITY ASSAYS MARKET INDUSTRY STRUCTURE

Raw Material Suppliers
Quality and Technology
Terms and Conditions
Cost-Effective Components
Manufacturers
Distributors
Raw Material Suppliers of Consumables
Quality
Terms and Conditions
Cost
Manufacturers of Consumables
Distributors of Consumables
End Users of Consumables
Innovation Within the Industry
Competitive Analysis

CHAPTER 10 COMPANY PROFILES

AAT BIOQUEST INC.
ABCAM
ABNOVA CORP.
ANASPEC INC.
BECTON, DICKINSON AND CO.
BIO-RAD LABORATORIES
BIOTEK INSTRUMENTS
BIOTIUM
BIOVISION INC.
CAYMAN CHEMICAL
CORNING INC.
CREATIVE BIOARRAY
DANAHER CORP.
DOJINDO MOLECULAR TECHNOLOGIES INC.
GE HEALTHCARE
INTELLICYT CORP.
MERCK KGAA

MESGEN
MOLECULAR DEVICES LLC
PERKINELMER
PROMEGA CORP.
R&D SYSTEMS INC.
TAKARA BIO INC.
THERMO FISHER SCIENTIFIC
VITASCIENTIFIC
