Abstracts

Report Scope:

This report is a comprehensive study of the global market for cholesterol testing. It describes the cholesterol tests market, which is segmented by product type and region. Based on product type, the market is segmented into lipid profile, total cholesterol tests, HDL tests, LDL tests, triglycerides tests and POCT. The market is segmented by region into North America, Europe, Asia-Pacific, and Rest of the World (RoW).

This report examines the factors driving growth in the global cholesterol tests market, as well as reviews major players, established companies and new entrants.

This report, however, does not cover quality control reagents, calibrators, analytical equipment, instruments, software, and accessories used in cholesterol testing.

Report Includes:

22 tables

An overview of the global cholesterol tests market

Estimation of the market size and analyses of the global market trends, with data from 2019-2021, with projection of CAGR through 2026

Coverage of risk indicators in major countries, prevalence of obesity and hypertension and information on mean total cholesterol level

Description of different types of cholesterol tests such as lipid profile, total cholesterol tests, high density lipoprotein (HDL) tests, low density lipoprotein

(LDL) tests, triglycerides tests, and discussion on their current and historical market revenues

Analysis of new opportunities, challenges, and technological changes within the industry

Detailed analysis of the current market trends and forecast, new products launches and product enhancement, and technological innovations of the industry

Market share analysis of the key companies of the industry and coverage of events like mergers & acquisitions, joint ventures, collaborations or partnerships, and other key market strategies

Company profiles of major players in the market, including Abbott Laboratories, F. Hoffmann-La Roche Ltd., Nova Biomedical, Siemens Healthineers GmbH, Sekisui Diagnostics LLC, and ThermoFisher Scientific Inc.
