Abstracts

REPORT SCOPE:

The civil engineering sector consists of businesses primarily engaged in applying physical laws and engineering principles to the planning, design, construction and maintenance of the built environment. This report is concerned specifically with the market for civil engineering services as they relate to public infrastructure projects.

Public infrastructure projects are construction or engineering projects executed by governments or other agencies that provide the physical networks necessary for the functioning of a modern society, including -

Bridges

Tunnels

Highways

Roads

Railroads

Airports

Canals

Dams

Dikes

Artificial harbors

Pipelines

Telecommunications

Electric power generation and transmission

Water supply

Wastewater and solid waste management

Other agencies include private concessionaries that construct and/or operate such projects on behalf of or in lieu of the government.

REPORT INCLUDES

68 data tables and 11 additional tables

An overview of civil engineering services for public works infrastructure projects in North America

Analyses of global market trends, with data from 2017, 2018, and projections of compound annual growth rates (CAGRs) through 2023

Information on public infrastructure projects or engineering projects executed by governments or other agencies that provide the physical networks necessary for the functioning of a modern society, including bridges, tunnels, highways, roads, railroads, airports, canals, dams, artificial harbors, pipelines, telecommunications, water supply, and wastewater and solid waste management

A look at the current regulatory updates, new developments, mergers and acquisitions and partnership activities, and patent expiry shaping the North American market landscape

Identification of the segments that should experience high growth during the time frame covered

Profiles of major market players within the industry, including Bechtel Group Inc., Hatch Mott MacDonald, Jacobs Engineering Group, Louis Berger Group and Parsons Corp.

CHAPTER 1 INTRODUCTION

Study Goals and Objectives
Reasons for Doing This Study
Scope of Report
Information Sources
Methodology
Geographic Breakdown
Analyst's Credentials
BCC Custom Research
Related BCC Research Reports

CHAPTER 2 SUMMARY AND HIGHLIGHTS

CHAPTER 3 MARKET AND TECHNOLOGY BACKGROUND

Definitions
Public Infrastructure
Civil Engineering
Infrastructure Conditions
United States
Canada
Mexico
Recent and Projected Trends in Infrastructure Spending
United States
Canada
Mexico

CHAPTER 4 CIVIL ENGINEERING SERVICES FOR PUBLIC WORKS INFRASTRUCTURE PROJECTS

Types of Civil Engineering Services Used in Public Works Infrastructure Projects
Civil Engineering Sub-disciplines
Civil Engineering and the Infrastructure Project Development Phases
Civil Engineering Share of Total Infrastructure Cost
Cost by Type of Project
Breakdown of Civil Engineering Costs by Project Phase

CHAPTER 5 NORTH AMERICAN MARKET FOR CIVIL ENGINEERING SERVICES

Summary

United States

Canada

Mexico

Airport-Related CE Services

Bridge-Related CE Services

Communications-Related CE Expenditures

Dam-Related CE Services

Energy-Related CE Expenditures

Inland Waterways-Related CE Services

Levee and Floodwall-Related CE Services

Port-Related CE Services

Railroad-Related CE Services

Road and Highway-Related CE Services

Tunnel-Related CE Services

Water/Wastewater-Related CE Expenditures

CHAPTER 6 EXPORT OPPORTUNITIES

NAFTA and the US-Mexico-Canada Agreement

Civil Engineering Service Trade among the US, Mexico, and Canada

United States

Canada

CHAPTER 7 COMPANY PROFILES

AECOM

BECHTEL GROUP INC.

BLACK & VEATCH

BURNS MCDONNELL

CDM SMITH

FLUOR CORP.

GOLDER ASSOCIATES CORP.

HATCH MOTT MCDONALD

HDR INC.

HNTB CORP.

JACOBS ENGINEERING GROUP INC.
LOUIS BERGER GROUP
MICHAEL BAKER INTERNATIONAL
PARSONS CORP.
PARSONS BRINCKERHOFF/WSP
PRIMORIS SERVICES CORP.
STANTEC INC.
STV INC.
TERRACON CONSULTANTS INC.
TETRA TECH INC.
TRC COMPANIES INC.
