### REPORT SCOPE:

Globally, contract manufacturing is expected to grow at a CAGR of over 6.6% during the forecast period. The contract manufacturing market is segmented based on verticals that have a noteworthy contribution to market growth. Some verticals included in the market analysis are consumer electronics, aerospace and defense, energy, food processing and manufacturing, personal care, healthcare and life sciences, packaging, automotive and furniture. The consumer electronics vertical further renders information about electronic equipment used in home appliances, Smartphones, IT components, laptops and computers and accessories. The aerospace and defense sector provides contract manufacturing services for engines, airframes, fabrication, parts of satellites, assembly of components and space electronics. The report includes information about the energy sector for solar energy, wind energy and hydropower. The report provides supply chain analysis of original equipment manufacturers (OEMs), sub-contract manufacturers, raw material suppliers and product design and engineering firms, among others.

The major geographic regions covered in the report are North America (the U.S. and Canada,), Europe (U.K., Italy, France, Germany and Spain), Asia-Pacific (China, Japan and India) and the rest of the world (RoW) (Latin America, the Middle East and Africa). Estimated values are based on manufacturers' total revenues. Projected and forecasted revenue values are in constant U.S. dollars (USD), unadjusted for inflation. The study covers the global market for contract manufacturing. The selection of countries included in this report was mainly based on the total revenue generated. Major countries included in the report are the U.S., Canada, Germany, the U.K., Spain, Italy, France, China, Japan and India.

The competitive landscape of the global market for contract manufacturing is discussed

at length. Major companies involved in contract manufacturing are profiled in the report, with a description of product portfolios and recent developments. All categories are discussed in detail, describing each segment, measuring market size, identifying market drivers, forecasting for 2018-2023 and assessing competitors and competitor market shares.

## **REPORT INCLUDES:**

26 data tables and 32 additional tables

An overview of the global contract manufacturing market

Analyses of global market trends with data from 2017 and 2018, and projections of compound annual growth rates (CAGRs) through 2023

Discussion of underlying technologies and factors influencing the demand, including current trends, stringent government regulations, technological achievements and other macroeconomic factors

Identification of the companies that are best positioned to meet this demand because of their proprietary technologies, strategic alliances or other advantages

A relevant patent analysis

Competitive landscape covering major manufacturers and suppliers of contract manufacturing equipment. Major companies including Catalent Inc., Foxconn Technology Group, Flextronics International Ltd., Jabil Inc., Patheon N.V., and Zober Industries
