## Abstracts

### REPORT SCOPE:

The report covers the global dairy ingredient market in detail and studies all types of dairy ingredients in all regions. The market is categorized on the basis of major product types, applications, regions and countries. Volume and revenue forecasts have been provided from 2017 to 2023 for each product type, application, region and country.

The report also includes a discussion of the major players in each regional dairy ingredient market. Further, it explains major drivers and regional dynamics of the global dairy ingredient market, as well as current trends within the industry.

The report concludes with a special focus on the vendor landscape and detailed profiles of major vendors in the global dairy ingredient market.

### REPORT INCLUDES:

143 data tables and 80 additional tables

An overview of the global market for dairy ingredients and dairy alternatives

Analyses of global market trends, with data from 2017, 2018, and projections of compound annual growth rates (CAGRs) through 2023

Information on the trade pattern of the various types of powder dairy ingredients including whey protein, casein, lactose, whole milk and skimmed milk among others

An overview of dairy alternative products such as soy milk, almond milk, coconut milk and rice milk

Examination of the effect of supply variations on price trends and demand in each region

A look at the impact of changing milk production statistics in the Europe, Australia and New Zealand on the global dairy powder trade

Profiles of major companies in the industry, including Abbott Laboratories, Amul, Fonterra Co-Operative Group Ltd., Frieslandcampina and Sunopta
