Report Scope:

This report provides an overview of the global data lake market and analyzes market trends. Using 2021 as the base year, the report provides estimated market data for the forecast period from 2022 through 2027. Revenue forecasts for this period are segmented based on component, deployment mode, organization size, industry and region.

The report also focuses on the major trends and challenges that affect the market and the competitive landscape. It explains the current market trends and provides detailed profiles of the major players and the strategies they adopt to enhance their market presence. The report estimates the size of the global data lake market in 2021 and provides projections of the expected market size through 2027.

Report Includes:

72 data tables and 66 additional tables

An overview of the global markets for data lake, often referred to as next-generation hybrid data management solution

Analyses of the global market trends, with market revenue for 2021, estimates for 2022 and 2023, and projections of compound annual growth rates (CAGRs) through 2027

Understanding of the upcoming market opportunities and areas of focus to forecast the market into various segments

Estimation of the actual market size and market forecast for data lake, projected growth trends, and corresponding market share analysis by technology offering, business function, deployment mode, organization size, end-user industry, and region

Coverage of the technological, economic, and business considerations of the global data lake market

Insight into the Porter's five forces analysis covering various market and economic factors within data lake landscape, and a relevant patent analysis for data lake technology

Updated information on ongoing research activities for data lake, key technology issues, industry specific challenges, major types of end-user markets, and COVID-19 effects on this market

Review of recent merger and acquisition deals, partnerships, collaborations business expansions, and product launch strategies within the market for data lake technology

Identification of the major stakeholders and analysis of the competitive landscape based on recent developments and segmental revenues

Descriptive company profiles of the leading global players, including Alphabet (Google), Amazon Web Services, Microsoft Corp., IBM Corp., Oracle, SAP SE and Cloudera Inc.
