## Abstracts

### Report Scope:

The report focuses on the global market for the various types of assistive devices that are on the market to enable disabled and elderly persons to move about, see, hear, speak, dress themselves and perform many other everyday activities as “normally” as possible. It provides a detailed description of the different types of disabled and elderly assistive technologies (mobility aids, access aids, beds, seating systems and ergonomic aids, daily living aids, communication aids, medical/personal monitoring aids, vision and reading aids, computer access aids, and environmental aids) and their current and projected market potential.

The mobility aids market is segmented in wheelchairs and scooters, ambulatory aids, vehicle conversions and navigation aids. Access aids market is segmented in residential/home elevators, transfer lifts, wheelchair lifts, stair lifts/climbers, accessible baths and showers, and door openers. Daily living aids market is divided in incontinence and ostomy products, toileting aids and other daily living aids. Communication aids market is segmented in hearing and listening aids, and speech and writing aids.

The report provides market revenue for each geographical segments, North America, Europe, Asia-Pacific and Rest of the World (RoW). The report's detailed analysis allows for an in-depth understanding of the market, competitive environment, market background, technological advancement, drivers, restraints and market growth trends. This report does not cover physical therapy and exercise equipment designed for the elderly and disabled.

### Report Includes:

42 data tables and 62 additional tables

An updated review of the global market for disabled and elderly assistive technologies (AT)/assistive devices

Analyses of the global market trends, with historic data from 2019-2020, estimates for 2021, and projections of compound annual growth rates (CAGRs) through 2026

Evaluation and forecast the overall market size in dollar value terms, and corresponding market share analysis by product type and geographic region

Technology assessment of the key drivers and constraints that will shape the market for disabled and elderly assistive technologies over the next ten years

Coverage of major product types and applications, both in the commercial and developmental phase

Identification of the major stakeholders and analysis of their competitive landscape based on recent developments and segmental revenues

Review of various new premarket approvals (PMA) and 510(k) clearances received in the disabled and elderly assistive technology and devices market between Jan. 2018 to Sept. 2021

Insight into the recent industry structure, current competitive scenario, R&D activities, regulatory and legislative issues, and license agreements currently focused on disabled and elderly assistive technologies and devices market

Company profiles of the key industry players, including Cochlear Ltd., Invacare Corp., Savaria Corp., Sonova Holdings AG, GN Group and ConvaTec

## **CHAPTER 6 MARKET DYNAMICS**

*Disabled and Elderly Assistive Technologies*

## Market Drivers

Aging Population

Greater Incidence of Non-communicable/Chronic Diseases

Increase in Incidence of Obesity

Increase in Incidence of Road Accidents across All Geographies

Technology Innovations and New Product Development

Large Unpenetrated Addressable Market

Desire to Age in Place

Increasing Pressure to Curtail Healthcare Costs

More Funding Programs for Assistive Devices

## Market Restraints

High Cost of Assistive Devices

Pricing Pressure

Reimbursement Issues

Impact of COVID-19

## CHAPTER 7 APPROVALS AND NEW DEVELOPMENTS

Premarket Approvals (PMA)

510(K) Clearances

Mobility Aids

Hearing Aids

## CHAPTER 8 COMPETITIVE LANDSCAPE

Overview

Major Players by Segment

Mobility Aids

Access Aids

Beds, Seating Systems and Ergonomic Aids

Daily Living Aids

Communication Aids

Medical/Personal Monitoring Aids

Mergers and Acquisitions in the Assistive Technology Market
