Abstracts

Report Scope:

This report covers the technological, economic and business considerations of the face mask market, with analyses and forecasts provided for global markets. It includes relevant descriptions of market forces and their areas of application.

Global markets are presented by face mask type, along with growth forecasts through 2027. Estimates on sales value are based on the price in the supply chain at which the face masks are procured by the manufacturers.

Market-driving forces and industry structure are examined. International aspects are analyzed for all regions and face masks technologies. Brief profiles of major global manufacturers are presented.

The COVID-19 pandemic recently halted global economic progress. Lockdown measures were taken to contain the spread of the coronavirus, especially in affected cities, and various international governments took the necessary measures to address the economic slowdown.

In 2020, the growth rate of every global industry was impacted by the pandemic, and in turn the face mask market was affected. The market is expected to bounce back in 2022 due to relief packages or disaster aid packages provided by various governments to boost their economies.

Report Includes:

210 data tables 23 additional tables

An overview of the global market for face masks equipment

Estimation of the market size and analyses of global market trends, with data from 2021, estimates for 2022, 2023 with projections of compound annual growth rates (CAGRs) through 2027

Analysis of the current market trends, market forecast, opportunities and economic trends that are affecting the future marketplace

Highlights of the current market scenario, recent information, latest developments, and factors impacting the growth of the market

Description of different types of masks including surgical mask and N-series mask (N 95, N 99, etc.) and discussion on awareness of face masks usage due to coronavirus impact

Identification of market drivers, restraints and other forces impacting the global market and evaluation of current market size and forecast, and assessment of new developments in the industry

Market share analysis of the key companies of the industry and coverage of their proprietary technologies, strategic alliances, and other key market strategies and a relevant patent analysis

Comprehensive company profiles of the leading players, including 3M, Cardinal Health, Honeywell International and UVEX Group

Awareness of Face Masks
Impact of the Coronavirus on the Face Mask Industry

CHAPTER 4 MARKET DYNAMICS AND SUPPLY CHAIN ANALYSIS

Drivers
Outbreak of COVID-19 Pandemic
Role of Social Media in Increasing the Demand for Masks
Growing Healthcare Industry in Emerging Economies
Development of Face Masks with Advanced Technologies
Restraints
Volatility in Raw Material Prices
Severe Impact of Face Masks on the Environment
Opportunities
Growing Trends in Health Standards and Occupational Safety
Strong Product Demand from the Healthcare Industry

Growing Adoption of Face Masks in the End-Use Industries
Integration of Technology in Personal Protective Equipment
Challenges
High Product Prices in the Industrial Sector
Supply and Demand Gap
Slump in Demand for Personal Protective Equipment Products
Supply Chain Analysis

CHAPTER 5 MARKET FOR FACE MASKS BY MASK TYPE

Introduction
Surgical Masks
N-Series Masks
