## Abstracts

### REPORT SCOPE:

The scope of this report includes the analysis of the feed premix market based on type, livestock, form, regional markets and major players. Overall revenue forecasts for the global feed premix market for the forecast period of 2019 to 2024 are provided. The feed premix market is analyzed -

By Type: Vitamins, Minerals, Amino Acids, Antibiotics and Others (Enzymes, Preservatives, Organic Acids, Antioxidants, Pigments and Flavors).

By Livestock: Ruminants, Swine, Poultry, Aquatic Animals, Pets, Other Animals (Pet Animals, Birds and Reptiles).

By Form: Dry and Liquid.

By Region: North America, Europe, Asia-Pacific and the Rest of the World (RoW).

The estimated values that are used are based on manufacturers' total revenues. Projected and forecast revenue values are in constant U.S. dollars that have not been adjusted for inflation.

In this report, the research on feed premix was conducted using 2018 as the base year and estimated demand is provided for 2019. Forecasted demand is provided for 2024, with the projection of CAGR during the forecast period. Both top-down and bottom-up

approaches were used for market sizing. Product portfolios, annual reports, product launches, press releases and any other relevant information concerning the key players were reviewed. Other key sources included recent trade data, internet sources, technical writing and statistical data collected from trade associations, government websites and agencies.

The scope of this report is focused on 12 selected companies in the feed premix market and the key areas in the field that are driving industry growth and allowing these companies to succeed. BCC Research also explores this industry's structure, noting strategic alliances and acquisitions along with pertinent patent information.
