Abstracts

Report Scope:

The scope of this report is broad and covers several product areas. The individual product segments are presented in terms of market size and revenue trends. The revenue forecasts are explained in terms of the key market issues for that product segment and are projected through 2028.

The report also offers an in-depth analysis of the competitive landscape within the global market for AI training dataset, focusing on key dynamics that drive success. It examines critical factors such as research and development capabilities and the influence of ecosystems and partnerships. The report includes profiles of AI training dataset manufacturers, providing valuable insights into their strategies and product offerings. Additionally, the report assesses the impact of the COVID-19 pandemic on the market, considering the challenges and opportunities that have emerged as a result.

In this report, the global market of AI training dataset has been segmented based on service, technology, end-user and geographical region. Based on type, the global AI training dataset market has been categorized into text, image/video and audio. Based on end-user, the global AI training dataset market has been categorized into BFSI, retail/e-commerce, IT and telecom, government, automotive, healthcare and others. By geography, the market has been segmented into North America, Europe, Asia-Pacific and Rest of the World (Row). North America currently is the most dominant market for AI training datasets.

The geographical coverage of this report encompasses North America, Europe, Asia-Pacific and Row (Latin America, the Middle East and Africa). The revenue forecasts from 2022(base year) and 2023 to 2028(forecast period) are given for all the segments in the global AI training dataset market, with estimated values derived from the revenue

of vendors offering AI training dataset.

Report Includes:

22 data tables and 16 additional tables

An overview of the global market for AI training datasets

Analyses of global market trends, with historical market revenue data (sales figures) for 2022, estimates for 2023, forecasts for 2024 and 2026, and projections of compound annual growth rates (CAGRs) through 2028

In-depth information (facts and figures) pertaining to the factors influencing the market, including drivers, restraints, opportunities and industry-specific challenges)

An estimate of the current market size, a revenue forecast for companies developing AI training datasets, and a corresponding market share analysis based on type, end-use application and region

A look at the major vendors in the global market for AI training datasets, and an analysis of the industry structure with respect to company value share, M&A and venture fundings

An evaluation on the importance of ESG in the AI training dataset market, with emphasis on the practices followed by companies

An analysis of the competitive landscape, including the recent developments, financials and segmental revenues of the leading companies

Company profiles of the market leaders

Geographic Breakdown

CHAPTER 2 SUMMARY AND HIGHLIGHTS

Market Outlook
Market Summary

CHAPTER 3 MARKET OVERVIEW

Overview
Benefits of AI Training Datasets
Types of AI Training Dataset
Training Data Evaluation Factors
Market Dynamics
Market Drivers
Market Restraints
Market Challenges
Market Opportunities
Macroeconomic Factors
Impact of COVID-19 on the AI Training Dataset Market

CHAPTER 4 MARKET BREAKDOWN BY TYPE AND BY END USER

Global AI Training Dataset Market by Type
Text
Image/Video
Audio
Global AI Training Dataset Market by End User
IT/Telecom
Automotive
