Abstracts

Report Scope:

This report examines the current and forecasted market potential for clinical trial management systems. It offers a detailed analysis of the market background, technological advancement, competitive environment, drivers and restraints, and market growth trends. This report includes market projections through 2026, detailing the market share for clinical trial management systems based on the product, deployment and delivery mode.

The clinical trial management systems product market is segmented into software and services. The clinical trial management systems deployment market is segmented into enterprise-based CTMS and site-based CTMS. The clinical trial management systems delivery market is segmented into web-based, cloud-based and on-premises services.

The clinical trial management systems market has been geographically segmented into Europe, North America, the Asia-Pacific (APAC) region and the Rest of the World (RoW). The detailed analyses of major countries such as the U.S., Germany, Canada, the U.K., Spain, Italy, France, Japan, India and China are regional segments. For market estimates, data are provided for 2020 as the base year, and then forecast from 2021 through year-end 2026. Estimated values are based on clinical trial management systems companies' total revenues. Projected and forecast revenue values are in constant U.S. dollars that have not been adjusted for inflation.

Report Includes:

32 tables

An overview of the global markets for clinical trial management systems

Estimation of the market size and analyses of market trends, with data from 2019 to 2020, estimates for 2021 and projection of CAGR through 2026

Quantification of clinical trial management systems market based on product type, deployment, delivery mode and region, and analysis of market drivers, restraints and other forces impacting the global market

Highlights of the current and future market potential and insights into government initiatives, regulatory framework and reimbursement scenario

Detailed description of the advanced technologies for clinical trial management systems and discussion on how they are advantageous to pharmaceuticals, biotech and other research-focused life sciences organizations

Market share analysis of the key companies of the industry and coverage of events like mergers & acquisitions, joint ventures, collaborations or partnerships and other key market strategies and a relevant patent analysis

Company profiles of major players, including Advarra, Calyx, DatStat, Medidata and Oracle

Introduction
Need for CTMS
CTMS
CTMS Features
CTMS Benefits
CTMS versus EDC

CHAPTER 4 MARKET DYNAMICS

Market Drivers
Increased Outsourcing of Clinical Trials
Growing Number of Clinical Trials
Rising R&D Expenditure of Biopharma Companies
Increasing Prevalence of Chronic Diseases
Market Restraints
Unreliable and Inaccurate Data
Complex and Poorly-Integrated Systems
Regulatory Barriers and Approval Delays

CHAPTER 5 IMPACT OF THE COVID-19 PANDEMIC

Introduction

Outbreak

Impact of COVID-19 on Clinical Trial Management Systems

CHAPTER 6 MARKET BREAKDOWN BY PRODUCT
