REPORT SCOPE:

This newly updated BCC Research report is designed to be a helpful business tool that provides a thorough evaluation of the market for dental equipment and supplies. The geographic scope of this study is global. The report identifies markets in the professional segments of dental furniture and equipment, general dental materials and supplies, dental treatment materials and supplies, as well as restorative and cosmetic materials and supplies, and additionally covers a basic overview of consumer dental market segments. Each market segment discussion provides detailed information based on product categories, uses of products, forecasts and competitive analyses.

The global dental market encompasses two general market segments %li%

Professional dental markets.

Furniture and equipment.

Materials and supplies — general dental.

Materials and supplies — preventive dental.

Materials and supplies — dental treatment.

Materials and supplies — restorative and cosmetic.

Consumer dental markets.

Daily preventive care and treatment.

Cosmetic materials and supplies.

The following products are included in the professional market %li%

Dental furniture and equipment — dental office furnishings; cavity-preparation systems and air abrasion units; dental lasers; CAD/CAM systems; practice management and workflow solutions; imaging/X-ray devices and related equipment; laboratory equipment and other dental equipment including dental instruments and tools; sterilizers and autoclaves; and amalgamators and mixers.
