Abstracts

Report Scope:

The report provides an overview of the global market for home Wi-Fi routers and analyzes market trends. Using 2020 as the base year, the report provides estimated market data for the forecast period of 2021 through 2026. Revenue forecasts for this period are segmented by data type, brand, portability, standardization, application and region. Market values have been estimated based on the total revenues of routers sold by the companies.

The report also focuses on the major drivers and challenges that affect the market. The report also explores the competitive landscape and current trends in the global home Wi-Fi router market.

Report Includes:

71 tables

An overview of the global markets for home Wi-Fi router

Estimation of the market size and analyses of market trends, with data from 2020, estimates for 2021, 2022, 2024 and projection of CAGR through 2026

Quantification of home Wi-Fi router market based on band type, data type, standard, portability, technology, application, and region, and analysis of market drivers, restraints and other forces impacting the global market

Highlights of the current and future market potential and discussion on effect of COVID-19 pandemic, work-from-home culture and online mode of schools and

colleges as the driving forces to the market
