## Abstracts

### Report Scope:

This report provides a detailed description of flexible manufacturing systems in the pharmaceutical industry and the latest technologies in the market. The report includes market estimates for different types of flexible manufacturing systems and also includes recent technological developments and assessments of product performance in the market.

Based on the approach type, the flexible manufacturing systems in pharmaceutical industry is segmented into modular manufacturing, data-driven manufacturing, single-use manufacturing, and continuous manufacturing.

Based on application, the market is segmented into manufacturing, aseptic filling and others (research and development, clinical research and academic research).

Based on industry, the market is segmented into pharmaceutical and biotechnology.

The report discusses the qualitative and quantitative factors influencing the market growth. The market drivers, restraints and opportunities are discussed in the report.

This report discusses some of the major drivers and restraints as well as the competition and key players' strategies and performances. The discussion is focused on the major market players, trends in product launches, collaborations, and mergers and acquisitions. The report also emphasizes the company profiles of major vendors including company overview, key product offerings, financial statistics and recent developments. The report also provides insights on the market share and upcoming

regional demand.

Some of the major market players discussed in the report are Cytiva, Jacobs Engineering Inc., Exyte GmbH, G-CON Manufacturing, KeyPlants AB and Germfree Laboratories Inc. For market estimates, data have been provided for the year 2019 as the base year, with forecasts for 2021 through 2026. Estimated values used are based on manufacturers' total revenues. Projected and forecasted revenue values are in constant U.S. dollars, unadjusted for inflation.

Report Includes:

22 data tables and 20 additional tables

An overview of the global market for flexible manufacturing systems in the pharmaceutical industry

Estimation of the market size and analyses of the global market trends, with data from 2019, 2020, estimates for 2021 with projection of CAGR through 2026

Market share analysis of flexible manufacturing systems based on approaches, industry type, application, and geography, and identification of new opportunities, challenges, and technological changes within the industry

Detailed description of flexible manufacturing system, its working, objectives, benefits, and limitations

Detailed analysis of the regulatory framework and policies, reimbursement scenarios and key product and technology developments

Identification of economic and demographic factors affecting the market growth and market insights about the future of the industry

Information on quicker approval processes of regulatory authorities for the new drugs, and initiatives by international organizations to improve flexible manufacturing systems

Market share analysis of the key companies of the industry and coverage of their proprietary technologies, strategic alliances, and other key market strategies

Company profiles of major players in the market, including Cytiva, Jacobs Engineering Inc., Exyte GmbH, G-CON Manufacturing, KeyPlants AB and Germfree Laboratories Inc.

## Contents

### **CHAPTER 1 INTRODUCTION**

Study Background  
Study Goals and Objectives  
Reasons for Doing This Study  
Scope of Report  
Information Sources  
Methodology  
Geographic Breakdown  
Analyst's Credentials  
BCC Custom Research  
Related BCC Research Reports

### **CHAPTER 2 SUMMARY AND HIGHLIGHTS**

### **CHAPTER 3 MARKET AND TECHNOLOGY BACKGROUND**

Flexible Manufacturing Systems-Overview  
How Does a Flexible Manufacturing System Work?  
Objectives of FMS  
Benefits of FMS  
Limitations of FMS  
Flexibility in Pharmaceutical Manufacturing  
Flexibility-The Future of Pharma Manufacturing  
The New Pharma Reality  
Single-use Systems for Biopharmaceuticals  
Continuous Manufacturing  
Modular Manufacturing  
Industry 4.0 in Pharma Manufacturing  
Time to Act  
Artificial Intelligence  
Increasing Adoption of Industrial Internet of Things (IIoT)  
Conclusions  
Regulatory Aspects  
Current Goods Manufacturing Practices (CGMPs) Overview  
Importance of CGMPs  
Existing Regulatory Guidelines on CM

## **CHAPTER 4 IMPACT OF COVID-19 PANDEMIC**

Impact of COVID-19

Need for Modular Manufacturing Approach

Speed to Market

Flexible Capacity

The Vaccine Facility of the Future

U.S. Biocontainment Manufacturer Provides Mobile Laboratory Facility for Work on COVID-19 Vaccine

130,000 Square-foot Drug Manufacturing Facility in Seattle Area Developed COVID-19 Therapeutics

New Collaboration Between Exyte and Univercells Technologies for Quick Deployment of Vaccine Production Plants to Combat the COVID-19 Pandemic

## **CHAPTER 5 MARKET DYNAMICS**

Market Drivers

Increased Emphasis on Lowering Manufacturing Costs and Unpredictable Demand for Different Products

Regulatory Authorities Support New Manufacturing Trends by Offering Quicker Approval Processes for New Drugs

The Need for Process Optimization and Improvements in the Supply Chain Is Driving Investment in Automation Technologies Across the Pharmaceutical Industry

Current Rise in Demand for Biopharmaceuticals Due to COVID-19 Has Driven the Need for Strategic Changes in Bioprocessing

Market Restraints

Slow Rate of Adoption as the Industry Faces a Large Existing Capital Footprints, and Inconsistency in the Global Regulatory Framework

Uncertain Regulatory Policies

Market Opportunities

Initiatives by International Organizations to Improve Flexible Manufacturing Systems

Rising Opportunities with Industry 4.0 and Pharma 4.0

Competitive Landscape

Cytiva

Jacobs

Exyte GmbH

## **CHAPTER 6 MARKET BREAKDOWN BY APPROACH**

Global Flexible Manufacturing Systems in the Pharmaceutical Industry, by Approach  
Modular Manufacturing  
Market Size and Forecast  
Data-driven Manufacturing  
Key Benefits of Data-driven Manufacturing in the Pharmaceutical Industry  
Market Size and Forecast  
Single-use Manufacturing  
Market Size and Forecast  
Continuous Manufacturing  
Market Size and Forecast

## **CHAPTER 7 MARKET BREAKDOWN BY APPLICATION**

Global Flexible Manufacturing Systems in the Pharmaceutical Industry, by Application  
Manufacturing  
Market Size and Forecast  
Aseptic Filling  
Market Size and Forecast  
Others  
Market Size and Forecast

## **CHAPTER 8 MARKET BREAKDOWN BY INDUSTRY**

Global Flexible Manufacturing Systems in the Pharmaceutical Industry Market, by End-Use Industry  
Pharmaceutical  
Market Size and Forecast  
Biotechnology  
Market Size and Forecast

## **CHAPTER 9 MARKET BREAKDOWN BY REGION**

Global Flexible Manufacturing Systems in Pharmaceutical Industry Market, by Region  
North America  
U.S.  
Canada  
Europe  
Germany

Italy  
Switzerland  
U.K.  
France  
Rest of Europe  
Asia-Pacific  
India  
China  
Australia  
Japan  
Rest of Asia-Pacific  
Rest of the World  
Market Size and Forecast

## **CHAPTER 10 COMPANY PROFILES**

BIOLOGICS MODULAR, LLC  
CYTIVA  
ESC  
EXYTE GMBH  
G-CON MANUFACTURING INC.  
GERMFREE LABORATORIES INC.  
IPM TECHNOLOGIES  
JACOBS ENGINEERING GROUP INC.  
KEYPLANTS AB  
MODULECO LTD. (MODULECO PHARMA)  
MODWAVE LLC  
UNIVERCELLS TECHNOLOGIES  
ZETON INC.

## **CHAPTER 11 APPENDIX: LIST OF ABBREVIATIONS**

## List Of Tables

### LIST OF TABLES

Summary Table: Global Market for Flexible Manufacturing Systems in the Pharmaceutical Industry, by Approach, Through 2026

Table 1: List of Companies and Currently Approved Drug Products Manufactured with Continuous Manufacturing

Table 2: Existing Regulatory Guidelines on Continuous Manufacturing

Table 3: Global Flexible Manufacturing Systems in Pharmaceutical Industry Market Vendors, by Ranking, 2020

Table 4: Global Market for Flexible Manufacturing Systems in the Pharmaceutical Industry, by Approach, Through 2026

Table 5: Global Market for Modular Manufacturing System in the Pharmaceutical Industry, by Region, Through 2026

Table 6: Global Market for Data-driven Manufacturing System in the Pharmaceutical Industry, by Region, Through 2026

Table 7: Global Market for Single-use Flexible Manufacturing System in the Pharmaceutical Industry, by Region, Through 2026

Table 8: Global Market for Continuous Manufacturing System in the Pharmaceutical Industry, by Region, Through 2026

Table 9: Global Market for Flexible Manufacturing Systems in the Pharmaceutical Industry, by Application, Through 2026

Table 10: Global Market for Flexible Manufacturing Systems in the Pharmaceutical Industry Manufacturing Applications, by Region, Through 2026

Table 11: Global Market for Aseptic Filling Applications for Flexible Manufacturing Systems in the Pharmaceutical Industry, by Region, Through 2026

Table 12: Global Market for Flexible Manufacturing Systems in Other Pharmaceutical Industry Applications, by Region, Through 2026

Table 13: Global Market for Flexible Manufacturing Systems in the Pharmaceutical Industry, by End-Use Industry, Through 2026

Table 14: Global Market for Pharmaceutical End Use in Flexible Manufacturing Systems in the Pharmaceutical Industry, by Region, Through 2026

Table 15: Global Market for Biotechnology End Use in Flexible Manufacturing Systems in the Pharmaceutical Industry, by Region, Through 2026

## I would like to order

Product name: Global Market for Flexible Manufacturing Systems in the Pharmaceutical Industry

Product link: <https://marketpublishers.com/r/G07CE235A317EN.html>

Price: US\$ 2,750.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/G07CE235A317EN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:

First name:  
Last name:  
Email:  
Company:  
Address:  
City:  
Zip code:  
Country:
