Abstracts

Report Scope:

This BCC Research study on DTM, including blockchain, was conducted from a global perspective. Market projections were developed for the five geographic regions with market table values in constant U.S. dollars adjusted for inflation. The report provides an understanding of how blockchain and DTM technologies will create new market opportunities. DTM is defined through its key sub-segments that include identity and authentication management, workflow management, e-signatures and digital asset management.

The report contains -

A detailed analysis of the technologies used in DTM, including blockchain.

Current and future market projections for DTM, including blockchain by region.

Current and potential applications for DTM, including blockchain

Current and future market projections for DTM, including blockchain by industry.

Profiles of current industry players in electronic signatures, workflow management, identity, authentication and workflow management.

A review of the economic/market opportunities for current industry participants and new entrants.

Report Includes:

62 data tables and 59 additional tables

An up-to-date review of the global markets for digital transaction management (DTM) including blockchain marketplace

Analyses of the global market trends, with data from 2020 and 2021, estimates for 2022 and 2024, and projections of compound annual growth rates (CAGRs) through 2026

Evaluation and forecast the global DTM/blockchain market size, projected growth trends, and corresponding market share analysis by component, technology, size of enterprise, application, end-use industry, and geographic region

In-depth information (facts and figures) concerning market drivers, market deterrents and other macroeconomic forces affecting the current and future demand for DTM/blockchain for solutions and services

Identification of companies best positioned to meet this demand owing to their proprietary technologies, mergers and acquisitions, strategic alliances, or other advantages

Regional and country specific data and analysis for DTM/blockchain solutions for the U.S., Canada, Mexico, Germany, U.K., France, Japan, China, Australia, and Singapore

Insight into recent industry structure, current competitive scenario, R&D activities, new product launches/DTM solutions, and company value share analysis based on their segmental revenues

Latest information on key M&A deals, partnerships and collaborations, product launches, and other expansion strategies in the market for DTM/blockchain

Descriptive company profiles of the leading global players, including Adobe Inc., Dropbox Inc., IBM Corp., Microsoft, Open Text Corp., and Wolters Kluwer N.V.
