Abstracts

Report Scope:

The report discusses different product types and end uses of recycled concrete in residential and non-residential industries across the regions. It offers a detailed analysis of various product types and the prevalent trends and opportunities in the market. The estimates of market values are based on a variety of factors and an analysis of manufacturers' revenues. Market dynamics within each end-user industry are identified. Technological advancements and trends are reviewed, and other influences such as economic conditions and standards are discussed. Because this is a global study, BCC Research analyzes domestic and international technological issues and economic considerations.

The market segments of the report are focused on the technical and commercial aspects of recycled concrete for different end users, such as infrastructure, industrial and residential. The report also discusses the climate policy and regulatory framework as well as ESG scenario that the recycled concrete industry operates within to maintain environmental sustainability and comply with government regulations.

The report also analyzes the regional markets for recycled concrete. The segments are forecast for 2023 to 2028, with 2022 serving as a base year. The report offers a competitive scenario of the market, including a detailed analysis of key market players and a list of small and regional market players.

The currency used in this report is the U.S. dollar, and market sizes are given in millions of U.S. dollars. In the case of companies reporting their revenue in U.S. dollars, revenues are taken from their annual reports. For companies reporting their revenue in other currencies, i.e., euros and pounds, the average annual currency conversion rate has been used for the particular year to convert those values into U.S. dollars. The

conversion rate for each currency conversion is provided in the report

Report Includes:

63 data tables and 41 additional tables

An overview of the global market for recycled concrete

Analyses of global market trends, with data from 2022, estimates for 2023, and projections of compound annual growth rates (CAGRs) through 2028

Evaluation of the current market size and revenue growth prospects specific to recycled concrete, along with a market share analysis by type, form, end use and geographic region

A look at the innovations, technological advances, and product launches from industry leaders

Analysis of the industry's regulatory framework and policies, its product pipeline, and its ESG challenges and ESG practices

Market share analysis of the key companies in the industry and coverage of their proprietary technologies, patents, strategic alliances, and other market strategies

Profiles of the leading players in the industry, including Arcosa Inc., CRH Plc., CEMEX S.A.B. DE C.V., Heidelberg Materials, and Greenstone Materials Inc.

CHAPTER 1 EXECUTIVE SUMMARY

Market Outlook
Scope of Report
Market Summary

CHAPTER 2 MARKET OVERVIEW

Market Potential
Porter's Five Forces Analysis
SWOT Analysis
Value Chain Analysis
Climate Policies and Regulations
The Paris Agreement
The European Green Deal
Other Relevant Regulations and Associations

CHAPTER 3 MARKET DYNAMICS

Drivers
Increasing Need for Decarbonization of the Construction Industry
Low-Cost Relative to Virgin Concrete Aggregates
Upsurge in Demand for Sustainable Construction
Potential to Preserve Natural Resources
Restraints
Lack of Supply Chain Visibility and Logistics-Efficiency
Opportunities
Recycled Concrete as a Means of Carbon Capture and Sequestration
Government Regulations to Limit Increasing Environmental Concerns
Challenges
Low Demand for Residential Construction Applications

CHAPTER 4 EMERGING TECHNOLOGIES AND DEVELOPMENTS

Introduction
Technological Convergence
Market Trends

CHAPTER 5 MARKET SEGMENTATION ANALYSIS

Segmentation Breakdown

Market for Recycled Concrete by Product Type

Crushed Stone

Asphalt Pavement Debris

Sand and Gravel

Cement Concrete Debris

Market for Recycled Concrete by Form

Unprocessed

Processed

Market for Recycled Concrete by End Use

Infrastructure

Industrial

Residential

Geographic Breakdown

Market for Recycled Concrete by Region

Asia-Pacific
