## Abstracts

### Report Scope

This report provides detailed information about the global skin allergy testing market. It includes market projections for 2028 and a ranking of key market players. It also analyzes the size of the skin allergy testing market based on test types, applications and end users. For this analysis, the skin allergy testing market is broken down by test type into the following segments: prick test, patch test, and intradermal test. It should be noted that this study excludes in vitro allergy tests. Based on applications, the skin allergy testing market is segmented into allergic rhinitis, allergic asthma, drug allergy, allergic conjunctivitis, anaphylaxis and others. Based on end users, the market is segmented into hospitals and clinics, diagnostic centers and others.

### Report Includes
