## Abstracts

### Report Scope:

This report provides a detailed description of the market for sternal closure devices. The report highlights the current and future market potential of sternal closure devices and provides a detailed analysis of the competitive environment, technological advancements, drivers, restraints, opportunities and trends in the market. The report also covers market projections through 2024 as well as market rankings for key market players. The report segments the market for devices based on types, material, procedure and geography. Based on types, the market is segmented into closure devices and bone cement. Closure devices are further segmented into wires, plates and screws, cables, and clips. Based on materials, the closure devices market is segmented into stainless steel, polyether ether ketone (PEEK), and titanium. Furthermore, the sternal closure devices market is segmented by procedure into median sternotomy, hemisternotomy and bilateral thoracosternotomy. By geography, the market has been segmented into the North America, Europe, Asia-Pacific and Rest of the World regions. The North America region includes the U.S., Canada and Mexico. Europe includes Germany, the U.K., France and the rest of Europe. Asia-Pacific includes China, India, Japan and the rest of Asia-Pacific. For market estimates, data have been provided for 2018 as the base year, with forecasts for 2019 through 2024.

### Report Includes:

57 data tables and 20 additional tables

An overview of the global market for sternal closure devices

Analyses of global market trends, with data from 2018, 2019, and projections of compound annual growth rates (CAGRs) through 2024

Information on sternotomy and details about how it helps in performing complex surgical interventions

Coverage of technological advancements, and research and development activities in the closure devices sector

Market share analysis of sternal closure devices based on types of devices, types of procedures, materials and geography,

Evaluation of market status, impact on future and market forecast of the industry

Discussion on factors affecting the market, regulatory trends, industry structure, and patent statuses

Profiles of key companies in the industry including, A&E Medical Corp., DePuy Synthes, Jace Medical LLC, Praesidia Srl, KLS Martin Group and Zimmer Biomet Holdings Inc.
