

Global Wind Turbine Blade Recycling Market

<https://marketpublishers.com/r/G8D11C6BC97CEN.html>

Date: April 2026

Pages: 165

Price: US\$ 4,650.00 (Single User License)

ID: G8D11C6BC97CEN

Abstracts

The report provides an overview of the wind turbine blade recycling market. The market is segmented and analyzed by blade material, end-use industry, recycling technology, and region. The market size is provided in value (\$ thousands) for the base year 2024 and estimated data for the forecast period 2025 through 2030. It also discusses market dynamics, emerging technologies, and competitive dynamics. Emerging trends, technological advances, and Porter's Five Forces analysis are also provided in the report.

The report scope does not cover the waste material generated during the wind turbine blade manufacturing. It only includes the revenue generated by companies offering recycling services/solutions for the decommissioned wind turbine blades after their end-of-life (EOL) period of around 20-25 years.

Report Includes

93 data tables and 50 additional tables

An overview of the current and future global markets for wind turbine blade recycling

In-depth analysis of global market trends, featuring historical revenue data for 2024, estimated figures for 2025, as well as forecasts for 2029. This analysis includes projections of compound annual growth rates (CAGRs) through 2030

Estimates of the size and revenue prospects of the global market, along with a market share analysis by blade material, recycling technology, end-user industry, and region

Facts and figures pertaining to the market dynamics, technical advances, regulations, and the impact of macroeconomic factors

Analysis of market opportunities with a holistic review of the Porter's five forces analysis and value chain analysis considering both micro- and macro environmental factors prevailing in the market

Understanding of the importance of ESG in the market, consumer attitudes towards sustainability, risks and opportunity assessment, ratings and matrices, and ESG practices in the industry

A relevant patent analysis with emphasis on emerging technologies and new developments in the market

Analysis of the industry structure, including companies' market shares and rankings, strategic alliances, M&A activity and a venture funding outlook

Company profiles of major players within the industry, including Veolia, Holcim, Stena Metall AB, Vestas, and Siemens Gamesa Renewable Energy S.A.U.

Contents

CHAPTER 1 EXECUTIVE SUMMARY

- Market Outlook
- Scope of Report
- Market Summary
- Market Dynamics and Growth Factors
- Regional Insights and Emerging Markets
- Segmental Analysis
- Conclusion

CHAPTER 2 MARKET OVERVIEW

- Overview and Market Definition
- Porter's Five Forces Analysis
- Bargaining Power of Buyers
- Bargaining Power of Suppliers
- Potential for New Entrants
- Threat of Substitutes
- Competition in the Industry

CHAPTER 3 MARKET DYNAMICS

- Market Dynamics Snapshot
- Market Drivers
 - Aging Wind Turbines Driving Recycling Needs
 - Government Regulations for Landfilling
 - Corporate Sustainability Pledges and Integrated Recycling Initiatives
- Market Challenges
 - Lack of Standardized Recycling Technologies
 - Lack of Awareness Led to High Reliance on Cement Industry and Landfilling
- Market Restraints
 - High Cost of Recycling and Process Complexity
 - Degradation of Material Properties During Recycling
- Market Opportunities
 - Increasing Demand for Wind Energy Generation
 - Development of Recyclable Wind Turbine Material

CHAPTER 4 EMERGING TECHNOLOGIES AND DEVELOPMENTS

Emerging Technologies and Developments
Recovery of Phenol through Waste-Free Process by KTU
NREL's PECAN Resin
Blades as a Feedstock for Additive Manufacturing
Increasing Trend of Large-Sized Wind Turbine Installations
Recyclable Carbon Fiber Wind Turbine Blade
Microwave-Assisted Chemical Recycling (MACR)

CHAPTER 5 MARKET SEGMENTATION ANALYSIS

Segmentation Breakdown
Market Analysis by Blade Material
Glass Fiber
Carbon Fiber
Other Blade Materials
Market Analysis by Recycling Technology
Key Takeaways
Mechanical Recycling
Thermal Recycling
Chemical Recycling
Market Analysis by End-Use Industry
Key Takeaways
Construction
Automotive
Electronics and Consumer Goods
Energy
Other End-Use Industries
Geographic Breakdown
Market Analysis by Region
Europe
North America
Asia-Pacific
Rest of the World

CHAPTER 6 COMPETITIVE INTELLIGENCE

Overview

Company Share Analysis

Veolia

Holcim

Stena Metal AB

Vestas

Siemens Gamesa Renewable Energy S.A.U.

Strategic Analysis

CHAPTER 7 APPENDIX

Methodology

Information Sources

References

Abbreviations Used in the Report

Company Profiles

ACCIONA

ARKEMA

BCIRCULAR

CARBON RIVERS

FAIRMAT

HOLCIM

IBERDROLA S.A.

LM WIND POWER

MAKEEN ENERGY A/S

REGEN FIBER

RENERCYCLE

SIEMENS GAMESA RENEWABLE ENERGY S.A.U.

STENA METALL AB

VEOLIA

VESTAS

List Of Tables

LIST OF TABLES

Summary Table : Global Market for Wind Turbine Blade Recycling, by Region, Through 2030
