REPORT SCOPE:

This report covers the gold mining industry. Definitive and detailed estimates and forecasts of the global market are provided, followed by a detailed analysis of the regions, technology, end-uses and on-going trends.

This report covers the technological, economic and business considerations of the gold mining industry, with analyses and forecasts provided for global markets. The report includes descriptions of market forces relevant to the gold mining industry and their areas of application.

Global markets are presented for the size of gold mining segments, along with growth forecasts through 2026. Estimates of sales value are based on the price in the supply chain. It analyzes market-driving forces and examines industry structure. It also analyzes international aspects of all global regions and types of gold mining. Profiles of major global manufacturers also are presented.

This report considers the impact of COVID-19, which impacted the growth rate of every global industry in 2020 and continues to affect market forces.

The report segments the gold mining market by technology: placer mining, hardrock mining, bio-mining and recycling. The market also is segmented into following end-uses: jewelry, technology, investment and central banks.

REPORT INCLUDES:

87 data tables and 5 additional tables

An up-to-date analysis of current and future global markets for gold mining
