Report Scope:

The scope of the report includes the global market of commercially deployed identity verification products, solutions, and services.

Identity verification-based products that are in the pilot phase or are live for demonstration purposes have not been considered in the calculation of the overall market size.

The market size includes the market of both identity verification components, solutions, services, deployment types, and organization size.

The final market estimates and forecasts from industry experts are also aligned in the report.

The report includes both verification types and end-user industries for the calculation of overall market size.

Identity authentication-based software, solutions and services have not been considered in the report.

Report Includes:

75 data tables and 19 additional tables

An overview of the global market for identity verification

Estimation of the market size and analyses of global market trends, with data from 2020 to 2021, estimates for 2022 and 2024 with projections of compound annual growth rates (CAGRs) through 2026

Highlights of the market potential for identity verification market, based on component, type, deployment type, organization size, end-use industry and region
