REPORT SCOPE:

The scope of the report includes, a general outlook of securities in IT industry. While most of the information is referenced from reports published by BCC Research during the year 2016, 2017 and 2018, market trends and estimates are updated to latest base year, i.e. 2018. This report covers only cyber security, Internet of Things (IoT) security, and cloud security. The cyber security market covers the following technologies: identity and access management (IAM), encryption, data loss protection (DLP), firewall, antivirus and antimalware, disaster recovery, risk and compliance management, and other solutions.

The IoT security market is only for the commercialized IoT security solutions. It helps readers to understand how the IoT security solutions market will evolve, as well as the trends that will impact its adoption. The report focuses on security solutions that have been developed or customized to meet the unique needs of IoT systems. Services provided for integrating such solutions or managed security services are not included in the scope of this report.

The cloud security and vulnerability technologies market encompass various technologies used in cloud security and vulnerability applications. The cloud security and vulnerability market by application is segmented by identity and access management, security information and event management (SIEM), endpoint security, web security, messaging security, network security and vulnerability assessment.

Estimated values used are based on manufacturers' total revenues. Projected and forecasted revenue values are in constant U.S. dollars, unadjusted for inflation. The

scope is limited to the recent studies published by BCC Research and is thus not exhaustive.

REPORT INCLUDES:

27 tables

An overview of the global securities market in information technology (IT), encompassing cyber security, Internet of Things (IoT) security, and cloud security markets

Analyses of the global market trends with data from 2018, estimates for 2019, and projections of compound annual growth rates (CAGRs) through 2024

Detailed discussion of opportunities and innovation-driven securities market in IT highlights, as well as the major regions involved in such developments

An assessment of various technologies of IT security and the market dynamics of each technology

Identification of segments with high growth potential, as well as an understanding of future applications of given segments

Information on key trends related to technology, industry, and regional factors that shape and influence the overall IT security industry

Comprehensive company profiles of major global players in IT securities market, including Alphabet Inc., Cisco Systems Inc., Dell EMC, Lockheed Martin, Kaspersky Lab, McAfee etc.

CHAPTER 4 MARKET FOR CYBER SECURITY BY TYPE

Introduction

Information Technology (IT) Security: IoT, Cyber and Cloud Securities

Network Security
Different Ways to Mitigate Network Security Threats
Endpoint Security
Remote Management System
Proactive Malware Detectors
Gateway Antivirus Software
Gateway Anti-spy Software
Gateway Anti-spam Software
Web-filtering and Device Management
Wireless Security
Firewall
Intrusion Detection/Prevention System (IDS/IPS)
Wireless Encryption
Wireless Identity and Access Management
Wireless Unified Threat Management
Content Security
Cloud Security
Cloud Identity and Access Management
Data Loss Prevention
Web Security
Cloud IDS/IPS
Cloud Security Information and Event Management
Cloud Encryption
Cloud Database Security
Virtualization Security
Application Security
Antivirus Application Security
Anti-theft Application Security
Data Backup and Recovery Application Security
Identity and Access Management and Authentication Application Security
Compliance Management Application Security

CHAPTER 5 MARKET FOR CLOUD SECURITY AND VULNERABILITY BY TECHNOLOGY

Introduction
Identity and Access Management
IAM Market by Deployment Type
IAM Market by Region

Network Security
Network Security Market by Deployment Type
Network Security Market by Region
Endpoint Security
Endpoint Security Market by Deployment Type
Endpoint Security Market by Region
Messaging Security

CHAPTER 6 MARKET FOR IOT SECURITY BY TECHNOLOGY

IoT Market
Different Users and Players in the IoT Security Market
Market Size for IoT Security Solutions
Device Layer Security
Technology Overview for Device Layer Security
Market Analysis for Device Layer IoT Security Solutions
Regional Market Analysis for Device Layer IoT Security Solutions
Identity and Authorization Management Solutions
Encryption and Authentication Solutions
Network Layer IoT Security
Introduction
Technology Overview for IoT Network Technologies
Security Technologies for IoT Network Security
Market Analysis for Network Level IoT Security Solutions
Regional Market for Network Layer IoT Security Solutions
Technology Overview for Firewalls and IoT Gateways
IoT Gateways
IoT Application and Cloud Security
