SUMMARY

Global inorganic chemicals market is positive with significant growth potential for caustic soda and chlorine. There is increased demand for caustic soda and soda ash due to increased demand for glass and paper products, rising demand for food products and increasing demand for cosmetic products is driving the inorganic chemicals market.

The inorganic chemicals market reached a value of nearly REDACTED in 2017 and is expected to grow at a compound annual growth rate (CAGR) of REDACTED to nearly REDACTED by 2022.

The inorganic chemicals market is concentrated with a few large players dominating the market. Major players in the market are Hanwha Chemical Corp., Yara International ASA, CF Industries Holdings, Inc., Eurochem Group, Olin Corp. and others.

Nitrogen compounds accounted for the largest share of the inorganic chemicals market in 2017 at REDACTED. The highest growth is projected to come from soda ash, which is forecasted to grow at a CAGR of REDACTED. Major factors included increasing demand for these products from end user industries such as papers, fertilizers and personal care products.

Asia Pacific is the largest inorganic chemicals market, accounting for REDACTED of the global market. It was followed by North America and Western Europe region. Going forward, Asia Pacific is expected to witness the fastest growth in the inorganic chemicals market, estimated at grow at a CAGR of REDACTED, followed by South America which is expected to grow at a CAGR of REDACTED.

China is the largest market in terms of value and in the inorganic chemicals market. China and India are forecasted to have the fastest growth, growing at a CAGR of READCTED and READCTED, respectively.

The market is challenged by restraints such as rising trade protectionism and growing popularity of organic farming and erratic rainfall due to global warming.
