

The Market for Minimally Invasive Medical Devices

<https://marketpublishers.com/r/M0CDC3462715EN.html>

Date: July 2023

Pages: 145

Price: US\$ 5,500.00 (Single User License)

ID: M0CDC3462715EN

Abstracts

Report Scope:

This report on minimally invasive medical devices is segmented based on equipment types, application types and end users.

A detailed analysis illustrating market dynamics and market structure is incorporated in the report. A Porter's Five Forces analysis and the supply and distribution chain are discussed in detail for an in-depth market understanding. The report covers the current regulations and guidelines for minimally invasive medical devices. The report includes top market players detailing their business operations, segment focus, revenue, and strategy analysis. Market share analysis of leading market players, product launches, and pipeline products are also captured in the information.

Regarding geography, the reports analyze the market across North America, Europe, and Asia-Pacific. Key countries like the U.S., Canada, Mexico, Europe (top five countries), China, India, and Japan are discussed due to the high concentration of minimally invasive medical device manufacturing companies and contract manufacturing organizations in these countries.

The base year for market data is 2022, with historical data for 2020 and forecast data for 2028. Historical, base year and forecast data are provided for each market segment of the report.

Report Includes:

21 data tables and 26 additional tables

An up-to-date overview and industry analysis of the global markets for minimally

invasive medical surgical devices and instruments within the industry

Analyses of the global market trends, with historical market revenue data (sales figures) for 2020-2022, estimates for 2023, and projections of compound annual growth rates (CAGRs) through 2028

Estimation of the current market size and revenue growth forecast for the global minimally invasive medical devices market in USD million values, and corresponding market share analysis based on equipment type, application, end user, and region

Identification of the segments of main types of minimally invasive devices and instruments that have been commercialized till date

Analysis of historical and current volume and value of shipments of each of these product segments in specified end user and geographic markets

Updated information on key market drivers and opportunities, industry shifts and regulations, and other region and industry specific macroeconomic variables that will influence this market in the coming years (2023-2028)

Identification of promising new surgical procedures and products still in the development and testing stage and assess their probability of successful commercialization in the next 5 years

A look at the leading device manufacturers and analyze the structure of the minimally invasive surgical devices industry (e.g., market shares, concentration and recent merger and acquisition (M&A) activity)

Discussion of the current state of minimally invasive medical surgical devices and instruments, commercialized and pipeline products, regulations and standards, as well as key industry aspects

Review of the key patent grants and patent applications on minimally invasive medical surgical devices and instruments

Identification of the major stakeholders and analysis of the competitive landscape based on recent developments and segmental revenues

Descriptive company profiles of the leading global players of the industry,
including 3M, Abbott, Danaher Corp., Johnson & Johnson and Olympus Corp.

Contents

CHAPTER 1 INTRODUCTION

Study Goals and Objectives
Reasons for Doing This Study
What's New in This Update?
Scope of Report
Information Sources and Methodology
Secondary Research
Primary Research
Research Methodology
Geographic Breakdown

CHAPTER 2 SUMMARY AND HIGHLIGHTS

Market Outlook

CHAPTER 3 MARKET AND TECHNOLOGY BACKGROUND

General Description
History of Minimally Invasive Surgery
Endoscopy
Insufflation
Specialized Surgical Instruments
Minimally Invasive Surgical Procedures
Surgical Robotics
Medical Lasers
Principal Applications of Minimally Invasive Surgery
Market Drivers
Increasing Prevalence of Surgery
Increase in Minimally Invasive Surgeries
Increasing Expenditures for Healthcare
Increasing Geriatric Population
Market Restraints
High Cost of Surgical Navigation Systems
Regulatory Guidelines and Product Recall
Increased Time for the Overall Procedure Using Navigation Systems Impacting Penetration

Opportunities

Technological Advancements

Medical Tourism Aiding Market Penetration in Emerging Markets

Impact of COVID-19 on Market for Surgical Navigation Systems

Impact of COVID-19 Pandemic on Revenue of Major Surgical Navigation System

Manufacturers

Impact of Russia-Ukraine War on the Market for Surgical Systems

CHAPTER 4 MARKET BREAKDOWN BY EQUIPMENT TYPE

Device and Equipment Segments

Market Size

MIS Device Design Trends

Visualization Technology

User-Centered Design in MIS Devices

Forecast for MIS Devices

CHAPTER 5 MARKET BREAKDOWN BY APPLICATION AND END USER

Application Segments

Market Size

Gastrointestinal Surgery

Gynecology

Urology

Cosmetic Surgery

Thoracic Surgery

Cardiothoracic Surgery

Noncardiac Vascular Interventional Surgery

Orthopedic Surgery

Product Types

Monitoring/Visualization Equipment

Robotically Assisted Surgical Systems

Electrosurgical Equipment

Mechanical Instruments

Auxiliary Equipment

Surgical Devices

End-User Market

CHAPTER 6 EMERGING TECHNOLOGIES

Developments

Adaptation of Minimally Invasive Techniques to New Types of Surgical Procedures

Natural Orifice Transluminal Endoscopic Surgery

Demographic and Economic Trends

Changing Structure of the Healthcare Industry

Long-Term Outlook for Minimally Invasive Surgical Devices and Equipment

CHAPTER 7 EVALUATION OF THE MARKET BASED ON REGION

Overview of the Geographical Distribution of the Market

North America

Europe

Asia-Pacific

Rest of the World

United States

European Union (EU)

Japan

Other Countries

CHAPTER 8 PATENTS

CHAPTER 9 COMPETITIVE LANDSCAPE

Mergers, Acquisitions, and Collaborations

Company Market Shares

CHAPTER 10 COMPANY PROFILES

3M

ABBOTT

B. BRAUN MELSUNGEN AG

BAXTER

BECTON, DICKINSON AND CO.

BIO-RAD LABORATORIES INC.

BOSTON SCIENTIFIC CORP.

CARDINAL HEALTH

DANAHER CORP.

DRAGERWERK AG & CO. KGAA

F. HOFFMANN-LA ROCHE LTD.
INTEGRA LIFESCIENCES HOLDINGS CORP.
JOHNSON & JOHNSON SERVICES INC.
MEDTRONIC
OLYMPUS CORP.
ZIMMER BIOMET

List Of Tables

LIST OF TABLES

Summary Table: Global Market for MIS Devices and Equipment, Through 2028

Table 1: Cumulative Procedure Volume for Hip and Knee Procedures, 2012-2021

Table 2: Global Bariatric Surgeries, 2011-2020

Table 3: Global Market for Minimally Invasive Medical Devices, by Type of Equipment, Through 2028

Table 4: Global Market for Minimally Invasive Medical Devices, by Application, Through 2028
