Abstracts

Report Scope:

The scope of the report includes, a general outlook of oil & gas exploration and production sector, with the scope limited to reports published by BCC Research during the year 2017 and 2018. This report segments the market into two major sub-segments i.e. oil & gas exploration and oil & gas production.

The exploration segment explains the prevalent and upcoming technologies covering the qualitative aspects of the market in brief. The report divides the production market into technologies and components. Production technologies discussed in the report include enhanced oil recovery technology and Fracking technology. Detailed overview of these technologies coupled with relevant market data in terms of market size measured in dollar terms are provided. The Production components covered in this study include oilfield process chemicals and drill pipes. The scope is limited to the recent studies published by BCC Research and is thus not exhaustive.

Report Includes:

170 tables

An overview of the oil and gas exploration and production technologies and components markets

Quantification of the market for oilfield exploration and production by various segments and sub-segments i.e., oil & gas exploration and oil & gas production

Analyses of global market trends with data from 2017 and 2018, and projections of compound annual growth rates (CAGRs) through 2023

Brief outline of the importance of advanced exploration and new downhole techniques within the O&G industry in correlation with substantial economic benefit to both government and industry players

Impact analysis of growing and contracting segments, technological challenges that the oil and gas industry is facing, and possible solutions to those challenges

Coverage of the all viable enhanced oil recovery (EOR) technologies along with their installation, operation, deployment, application area, environmental concern, regulatory framework, cost benefits etc.

Company profiles of leading market players within the oilfield industry, including Advanced Resources International, Caterpillar, Denbury Resources, Hilong Group, National Oilwell Varco, And Wood Group

Contents

CHAPTER 1 INTRODUCTION

Study Goals and Objectives
Reasons for Doing This Study
Scope of Report
Methodology and Information Sources
Analyst's Credentials
BCC Custom Research
Related BCC Research Reports

CHAPTER 2 SUMMARY AND HIGHLIGHTS

CHAPTER 3 MARKET AND TECHNOLOGY BACKGROUND

Overview
History of Oil and Gas Sector
Classification of Petroleum Resources
Conventional Vs Unconventional Resources
Stages Split in the Oil and Gas Industry
Site Development for the Oil and Gas Production Fields
Contractor Activities
Utilities
Upstream Oil and Gas Lifecycle
Main Steps Involved in Oil and Gas Field Development
Implementation, Development and Innovation Along Lifecycle Phases of a Petroleum Reservoir
Onshore Versus Offshore
Upstream Oil and Gas Activities, Services and Equipment
Advancements in Exploration and Downhole Technologies
International Environment
Evolution of Exploration and Production Technologies

CHAPTER 4 OIL AND GAS EXPLORATION TECHNOLOGIES

Relationship Between Geologic/Engineering and Seismic Properties
Advancements in Exploration Technologies

Service Capabilities of Main Seismic Companies

CHAPTER 5 OIL AND GAS PRODUCTION TECHNOLOGIES

Enhanced Oil Recovery

What is Enhanced Oil Recovery?

History of Enhanced Oil Recovery

Benefits of Enhanced Oil Recovery

Drawbacks of Enhanced Oil Recovery

Enhanced Oil Recovery Technologies and Applications

Market Overview

Emerging Technologies

Regulatory Framework

Details on EOR Cost

Market Share Analysis

Enhanced Oil Recovery in Oilfield Process Chemicals

Processes for Enhanced Oil Recovery

Fracking

Industry Diagram

Oil and Gas Exploration and Production Companies

Energy Services Firms

Chemical Companies

Wastewater Treatment Firms

Industry Value Chain

Industry Definition

Definition of Hydraulic Fracturing Technology

Definition of Fracking Fluid Product

History and Development of the Industry

Importance of the Industry

Important Implications for the Industry

Technology Lifecycle

Market Overview

Government Regulations

Important Shifts in the Industry

Global Focus on U.S. Shale Companies

Impact on Other Industries

Distribution Channels

Industry Trends

Energy Demand

Environmental Concerns
Government Regulations
Recycling and Reuse

CHAPTER 6 OIL AND GAS PRODUCTION COMPONENTS

Oilfield Process Chemicals
Chemical Applications
Chemical Types
Chemical Functions
Oil and Gas Price Trends
Production Levels
Environmental Regulations
Functions of Oil Field Process Chemicals
Application
Drill Pipes
Introduction
Future of the Market
Developing Unconventional Reserves
Deep and Ultradeep Reserves Development

CHAPTER 7 COMPANY PROFILES

ADVANCED AROMATICS L.P.
ADVANCED RESOURCES INTERNATIONAL
AIR LIQUIDE
