Abstracts

Report Scope:

This report provides a comprehensive analysis of the paper packaging based on three categories, packaging type, end-user, and regions. The packaging types are segmented into eight major types: corrugated boxes, cartons, wrapping paper, bags and sacks, transparent packaging, and others. A detailed estimate and forecast of the global market by end-user are provided as food and beverages, healthcare, personal care and cosmetics, consumer goods, electrical and electronics, and others. The report also examines and quantifies the paper packaging market based on regions. Further, the report analyzes the industry structure, market dynamics, and supply chain analysis of the paper packaging industry. Transparent packaging is considered a separate segment, and transparent bags and wrapping paper are excluded from “bags and sacks” and “wrapping paper” segments respectively and covered under transparent packaging.

The report estimates the global market for paper packaging in 2021 and provides projections for the expected market size through 2027. Using 2021 as the base year, the report provides estimated market data for the forecast period, 2022-2027. Revenue forecasts for this period are segmented based on product, end-user, and geography. Market values have been estimated based on the total revenue of paper packaging solution providers.
