Report Scope:

This BCC Research report is designed to be a helpful business tool that will provide a thorough evaluation of the global pharmacy automation market. Definitive and detailed estimates and forecasts of the global market are provided, followed by a detailed analysis of segments and regions. In this report, the market has been segmented based on product type, application and region. Using 2022 as the base year, the report provides estimated market data for the designated forecast period from 2023 to 2028. The report covers the cross-segmentation for each segment and region. It also highlights major trends and challenges that affect the market and the vendor landscape.

The geographical scope is global but with special emphasis on the U.S. and developed Europe, with supplemental data covering other geographical markets and trends. The report identifies pharmacy automation markets by inpatient and outpatient pharmacy settings, and by product type. Within the global pharmacy automation market, there are two general pharmacy settings (market applications), each having second level sub-settings %li%

Inpatient pharmacy automation.

Acute-care settings.

Long-term care settings.

Outpatient pharmacy automation.

+44 20 8123 2220
info@marketpublishers.com

Outpatient/fast-track clinical settings.

Hospital retail settings.

Pharmacy benefit management services and other mail-order settings.

Retail pharmacy chains.

Each segment is further reviewed to provide detailed information on current and emerging products, current market estimates and market forecasts, and competitive analyses. Product segments covered in the report include %li%

Dispensing/storage.

Packaging/filing.

Software/logistics.

Other products.

Report Includes:

34 data tables and 76 additional tables

An overview of the global market and technologies for pharmacy automation

In-depth analysis of global market trends, featuring historical revenue data for 2022, estimated figures for 2023, as well as forecasts for 2024 and 2028. This analysis includes projections of Compound Annual Growth Rates (CAGRs) spanning through 2028

Evaluation of the current market size and revenue growth prospects specific to pharmacy automation, accompanied by a comprehensive market share analysis categorized by product type, application, and geographical region

Discussion on advantages of automation in the pharmacy, including increasing efficiency, lowering labor costs, and enhancing accuracy and speed, space

CHAPTER 1 EXECUTIVE SUMMARY

Market Summary
Scope of Report
Market Highlights

CHAPTER 2 MARKET OVERVIEW

Overview
Macro-Economic Factors Analysis
Global Economic Conditions
Global Population Growth
Rising Number of Chronic Diseases
Post-COVID-19 Impact on the Pharmacy Automation Market
Impact of Russia-Ukraine War

CHAPTER 3 MARKET DYNAMICS

Overview
Market Drivers
Rising Prescription Volumes in Pharmacies
Surge in Demand for Automated Packaging and Labeling Solutions
Continuous Need to Reduce Medicine Errors
Market Challenges
Stringent Regulatory Challenges
Market Opportunities
Growing Demand for Prescription Data Management Solutions
Shrinking Operating Budgets and Must Provide Outstanding Customer Service
Rising Awareness Among Pharmacists' Regarding Pharmacy Automation Solutions
Growth Opportunities in Emerging Economies

CHAPTER 4 EMERGING TECHNOLOGIES AND DEVELOPMENTS

Overview
Key Emerging Trends and Technologies
Integration of Artificial Intelligence and Robot Processing Automation Technology
Automated Telepharmacy and Remote Dispensing
