## Abstracts

### Report Scope:

In this report, the market has been segmented based on components, organization size, deployment mode, end user and region. The report provides an overview of the global POS software market and analyzes market trends. Using 2020 as the base year, the report provides estimated market data for the forecast period, 2021 through 2026. Market values have been estimated based on the total revenue of POS software providers.

This report covers the market for POS software by user base across different regions. It also highlights major trends and challenges that affect the market and the vendor landscape. The report estimates the global market for POS software in 2020 and provides projections for the expected market size through 2026.

The scope of the study includes POS software and related services. However, revenue generated for B2C adoption, and third-party vendors are not part of the scope.
