## Abstracts

### Report Scope:

This report analyzes the PM industry of Asia-Pacific, including the manufacturing capability and consumption associated with the region's major countries. It also examines industry standards, government and industry support, and other key factors related to the success of PM.

Market drivers within the industry are identified. The quantity and value of various powders and parts shipments are projected from 2017 to 2018, and then over a five-year period from 2018 to 2023. Technological issues and trends are projected, and other influential factors are discussed.

The report identifies major manufacturers of powder metal and other related materials, including ceramics and nanopowders, special alloys and metal matrix composites. It also includes companies that make parts and components for automotive products, industrial and tooling equipment, recreation and hobby items, appliances, business machines and other products.

### Report Includes:

27 data tables and 21 additional tables

Country specific data and analysis of powder metallurgy for China, India, Japan, South Korea and other emerging economies within the APAC region

Technological assessment of the powder metallurgy industry at a regional level covering Asia-Pacific, including manufacturing capability and consumption by regional markets

Information on industry standards, government and industry support, and other key factors related to the success of powder metallurgy

Identification of major manufacturers of powder metal and other related materials, including ceramics and nanopowders, special alloys and metal matrix composites

Company Profiles of major manufacturers and suppliers of parts and components for automotive products, industrial and tooling equipment, recreation and hobby items, appliances, business machines and other products including BASF, Epson Atmix Corp., GKN Sinter Metals, Hitachi Chemicals Co. Ltd. and Mitsubishi Material Corp.

### **CHAPTER 2 SUMMARY AND HIGHLIGHTS**

Overview

### **CHAPTER 3 TECHNOLOGY AND MARKET BACKGROUND**

Technology  
History  
Powder Metallurgy Process  
Powder Metallurgy Applications  
Industry and Trade Support  
Standards Development

### **CHAPTER 4 MARKET DYNAMICS**

Asia-Pacific Powder Metallurgy Market: Growth Drivers  
Trends in Motor Vehicle Production (Global and Asia-Pacific)  
Shift Toward Lightweight Technology  
Mass Production of Complex-Shaped Products  
Market Restraints  
Impact of Electric Vehicles on PM Parts  
Market Opportunities  
Hybrid Electric Vehicles Presenting Significant Market Opportunity for PM Parts

### **CHAPTER 5 ASIA-PACIFIC POWDER METALLURGY MARKET**

Asia-Pacific Powder Metallurgy Market by Material  
Iron-Based PM Market Assessment  
Iron-Based Metal Powder Characteristics and Properties  
Iron-Based Powder Metallurgy Applications  
Copper-Based PM Market Assessment  
Copper-Based Metal Powder Characteristics and Properties  
Copper-Based Powder Metallurgy Applications  
Particulates and Other Advanced Materials  
Properties  
Applications  
Asia-Pacific Powder Metallurgy Market by Application  
Asia-Pacific Powder Metallurgy Market by Country  
Japan  
India  
China

## **CHAPTER 6 INDUSTRY STRUCTURE**

Industry Structure  
Producers of Metal Powders and Other Raw Materials  
Makers of Process Equipment and Tooling  
PM Component Fabricators  
Market Leaders  
Leading Parts and Component Fabricators  
Leading Metal Powder Producers  
Leading Iron Powder Producers
