Abstracts

Report Scope:

This report identifies the global preclinical research outsourcing services market, along with all major global preclinical CRO companies. The total preclinical research outsourcing services market is segmented globally and by geographic regions. The service areas provided by preclinical CROs are extensively covered as well. The report offers a detailed examination of preclinical services, analyzes market trends for preclinical research outsourcing services with data from 2020, estimates from 2021, and projections of CAGR through 2026 (forecast period 2021–2026).

This report provides a comprehensive analysis of the top preclinical CROs and evolving roles in the preclinical outsourcing services. CRO expertise within certain therapeutic areas and experience with new and adaptive study design protocols can reduce costs and study duration. CROs are expected to continue to play an increasing role in many aspects of the preclinical and clinical trial process.

Strong demand for CROs leads to heightened market assessments and many blockbuster mergers and acquisitions (M&As). M&A activity has led to a few companies to develop proficiency across many areas of the clinical trial process. However, niche players still play crucial roles. This report analyzes emerging trends and changing dynamics within the preclinical research outsourcing services industry.

Report Includes:

24 data tables and 12 additional tables

An up-to-date review and analysis of the global markets for preclinical research outsourcing services

Analyses of the global market trends, with historic revenue (sales) data from 2019-2021, estimates for 2022, and projections of compound annual growth rates (CAGRs) through 2026

Evaluation and forecast the global market size for preclinical research outsourcing services, projected growth trends, and corresponding market share analysis by functional services and geographic region

In-depth information (facts and figures) concerning market drivers, market deterrents and other macroeconomic forces affecting the current and future market demand

Identification of companies best positioned to meet this demand owing to their proprietary technologies, mergers and acquisitions, joint ventures and other strategic alliances

Regulatory structure for preclinical research studies in the pharmaceuticals industry, marketed and pipeline products, pricing and reimbursement structure, and major developments influencing the progress of this market

Detailed analysis on the strength, weakness, and opportunities of the prominent players operating in the global preclinical research outsourcing services market

Insight into recent industry structure, current competitive scenario, increasing investments on R&D activities, current pharma/CRO contracts and company value share analysis based on their segmental revenues

Company profiles of major players, including Eurofins Scientific, IQVIA, Labcorp, SGS SA, and Thermo Fisher

CHAPTER 2 SUMMARY AND HIGHLIGHTS

CHAPTER 3 MARKET DYNAMICS

Market Drivers
Rising R&D Investment
Growth in Outsourcing of Non-Core Function
CROs Add Efficiency
Market Restraints
Challenges in Preclinical Research Outsourcing
Lack of Skilled Professionals
Market Opportunities
Growing Opportunities in Asia-Pacific
Inorganic Strategies
Emerging Markets

CHAPTER 4 IMPACT OF COVID-19

Overview of COVID-19 Crisis
Impact of COVID-19 on the CRO Market
Current Outlook

CHAPTER 5 GLOBAL MARKET OVERVIEW

Preclinical Process Overview

Market for Drug Substance/Active Pharmaceutical Ingredient Manufacturing for Drug Development

Manufacturers

Market Estimate for Outsourcing API Manufacturing for Drug Development

Formulation and Dosage Design Outsourcing Services

Companies

Market Overview and Estimates for Outsourcing of Formulation Development

Analytical/Bioanalytical Methods Development, Validation and Testing

Analytical Methods Development

Analytical Methods Validation, Verification and Qualification
