Report Scope

The routine health screening market presents a vast and promising opportunity as it responds to evolving healthcare trends and societal needs. With an increasing emphasis on preventive healthcare, routine health screenings have become instrumental in detecting potential health issues at early stages. The market's expansion is propelled by the rising incidence of non-communicable diseases, such as diabetes and cardiovascular disorders, coupled with the aging global population, necessitating proactive health management strategies. Technological advancements, including innovations in diagnostic tools and the integration of artificial intelligence, enhance the accuracy and accessibility of screenings, catering to a broader demographic. The aftermath of the COVID-19 pandemic has further underscored the importance of regular health check-ups, reinforcing the significance of routine health screenings.

Additionally, incorporating these screenings into corporate wellness programs and the trend toward personalized medicine further amplifies the market's potential. The routine health screening market is poised for substantial expansion, playing a pivotal role in the proactive and personalized management of individual health globally. This report presents insights into this market's current and future potential, drivers, challenges, opportunities, industry status, developments, market trends, geographical challenges, and strategies (e.g., mergers, acquisitions, collaborations). The report informs all market players, potential entrants, government agencies, and other interested parties. The report covers geographic regions in detail, so companies interested in expanding their geographic reach will also find this study helpful.

Report Includes

37 data tables and 39 additional tables

An overview of the global market for routine health screening

Analysis of global market trends, featuring revenue data for 2021-2023, estimates for 2024, forecasts for 2029 and projected CAGRs through 2029

Evaluation of the current market's size and revenue growth prospects, along with a market share analysis by test type, sample type, technology, and region

A look at recent innovations, technological advances, and product launches in the market

Analysis of the industry's regulatory framework and policies

A discussion of ESG challenges and practices in the routine health screening industry

An analysis of the key companies' market shares, proprietary technologies, alliances, and other strategies

A discussion of key patents

Profiles of the leading players, including Quest Diagnostics, Laboratory Corporation of America Holdings, Sonic Healthcare Ltd., Eurofins Scientific, and SYNLAB AG

CHAPTER 1 EXECUTIVE SUMMARY

Market Outlook
Scope of Report
Market Summary

CHAPTER 2 MARKET OVERVIEW

Overview
Cholesterol Test
Diabetes Test
Blood Pressure Test
Cancer Screening Test
Prenatal Testing
Vision and Hearing Screening
Bone Density Test
Thyroid Profile Test
Essential Nutrients Check
Others

CHAPTER 3 MARKET DYNAMICS

Factors Affecting the Routine Health Screening Market
Market Drivers
Advancements in Screening Technologies
Growing Prevalence of Chronic Diseases
Growing Health Consciousness
Increasing Healthcare Spending
Market Restraints
High Costs Associated with Routine Health Screening
Psychological Barriers
Lack of Awareness and Acceptability in Low and Middle Income Countries
Market Challenges
False Positive and False Negative Screening Test Results
Declining Reimbursement
Market Opportunities
Adoption of AI in Routine Health Screening

Expansive Opportunities in Emerging Economies

CHAPTER 4 MARKET SEGMENTATION ANALYSIS

Segmentation Breakdown

Routine Health Screening Market, by Test Type

Cholesterol Screening

Diabetes Screening

Blood Pressure Test

Cancer Screening

Prenatal Screening

Vision and Hearing Screening

Bone Density Test

Thyroid Profile Test

Essential Nutrients Tests

Others

Routine Health Screening Market, by Sample Type

Overview

Blood-Based Sample

Urine-Based Sample

Imaging Sample

Other Samples

Routine Health Screening Market, by Technology

Overview

QPCR (Quantitative Polymerase Chain Reaction)

Q-FISH (Quantitative Fluorescence In Situ Hybridization) Technology

Immunoassays

Medical Imaging

STELA (Single Telomere Length Analysis)

Other Technologies

Geographic Breakdown

Routine Health Screening Market, by Region

North America

Asia-Pacific

Europe

Rest of the World

CHAPTER 5 EMERGING AND UPCOMING TECHNOLOGIES IN THE MARKET

Introduction
Emerging and Upcoming Technologies
Deep Phenotyping Technologies
Digital Health Interventions
Digital Precision Medicine
Wearable Devices and Remote Monitoring
Multicancer Detection (MCDs) Assays
Artificial Intelligence in Routine Health Screening

5G-ENABLED DEVICES

Genetics Testing
Technological Concerns in the Routine Health Screening Market
Efficacy Data
Data Privacy
Regulatory Landscape
Supply Chain Challenges
Recent Developments

CHAPTER 6 ESG DEVELOPMENT

Introduction
Sustainability in Routine Health Screening Industry
WHO Global Action Plan
BCC Research Viewpoint

CHAPTER 7 COMPETITIVE LANDSCAPE

Mergers, Acquisitions and Collaborations
Manufacturer and Service Provider Market Share Analysis
Strategic Alliances

CHAPTER 8 APPENDIX
