Abstracts

Report Scope:

There are five sources of water for the desalination industry: brackish, seawater, brine, river, and pure water. This report covers only seawater and brackish water, which together account for more than 85% of the desalination industry. Brackish water and seawater are both types of salt water, but these sources differ by total dissolved solids (TDS). Each type of water requires different treatment methods. Brackish water is a blend of freshwater and seawater, characterized by a lower salt concentration than seawater. Seawater refers to the saline water naturally occurring in the ocean with a higher salt content.

Desalination plants range from small to large industrial or municipal facilities. This study discusses the status of global water resources and the growing gap between freshwater resources and demand for water from all sectors. The specific growth drivers for and the challenges related to the evolution of the desalination equipment market are presented.

A technical overview of the primary desalination technologies is provided on the basis of membrane and thermal-based technologies, as well as an overview of novel desalination methods. This updated version includes a study of the industrial segment, including the oil and gas, chemical, dairy, food and beverage, paper and pulp, pharmaceutical, semiconductor, and power industry and refinery sectors. The report presents the hypothetical unit cost of water as produced by the primary technologies as well as the sensitivity of that cost to variations in economic parameters.

The report also features a chapter highlighting the sustainability perspective of the seawater and brackish water desalination market at the global level. The chapter covers companies' performance in terms of ESG parameters.

The market size and estimates are provided in terms of value (\$ millions), with 2022 serving as the base year and market forecasts given for the period 2023 to 2028. Regional-level market sizes, with respect to technology and application, are also provided.

Report Includes:

37 data tables and 52 additional tables

An overview of the global market for seawater and brackish water desalination

Estimates of the market size and analyses of global market trends with data from 2022 and 2023, and projections of compound annual growth rates (CAGRs) through 2028

An examination of the current and future market potential, and breakdowns of the market by water source, technology, application, and geographic region

Descriptions of the primary desalination technologies and methods, and an assessment of the global seawater and brackish water desalination plant industry, from both market and application perspectives

In-depth information (facts and figures) pertaining to the major factors influencing the market, including emerging technologies and recent M&A activity

Insight into the industry structure, current competitive landscape, R&D activities, and regulatory and legislative issues

Analysis of relevant patents

Profiles of companies in the desalination industry, including Veolia Environnement, Acciona, LG Chem, and DuPont

Contents

CHAPTER 1 INTRODUCTION

Study Goals and Objectives
Reasons for Doing this Study
Scope of Report
What's New in This Update
Research Methodologies
Information Sources
Geographical Breakdown
Segmentation Breakdown

CHAPTER 2 SUMMARY AND HIGHLIGHTS

Market Outlook
Market Summary

CHAPTER 3 MARKET OVERVIEW

Definition of Desalination
History of Desalination
Overview of the Global Market for Water Desalination
Technologies Used in Water Desalination
Desalination System Economics: Unit Cost of Water
Overview
Plant Capacity and Initial Capital Investment
Cost Profiles of Desalination Technologies
Capital Cost Estimates, by Technology
Operating and Maintenance Costs
Energy Costs and Carbon Emissions
All-In Unit Cost of Water
Cost of Thermal Technologies
Future Cost Improvements in Desalination Technologies

CHAPTER 4 MARKET DYNAMICS

Market Drivers
Rising Demand for Water

Seawater and Brackish Water Desalination

Technological Advances in Desalination
Challenges
Making Desalination More Energy-Efficient and Cost-Effective
Disposal of Brine
Reuse of Desalted Water in Agriculture

CHAPTER 5 EMERGING TECHNOLOGIES AND DEVELOPMENTS

Trends in Green Desalination
Emerging Technologies
Dry-Test Seawater Reverse Osmosis (SWRO) Membrane
Closed Circuit Reverse Osmosis (CCRO)

CHAPTER 6 MARKET BREAKDOWN BY SOURCE

Introduction
Seawater
Advantages of Seawater Desalination
Barriers to Seawater Desalination
Brackish Water

CHAPTER 7 MARKET BREAKDOWN BY TECHNOLOGY

Introduction
Membranes
Reverse Osmosis
Electrodialysis/ED/EDR
Nanofiltration
Thermal
Multi-Stage Flash Distillation
Multi-Effect Distillation
Other Technologies
Hybrid Systems
MSF/RO or MED/RO
NF/MSF, NF/MED, NF/RO
MED/TVC

CHAPTER 8 MARKET BREAKDOWN BY END-USER INDUSTRY

Introduction
Municipal
Industrial
Oil & Gas
Chemical
Dairy, Food and Beverages
Paper and Pulp
Pharmaceuticals (Pharma and Biotech)
Semiconductors
Power Plants
Other Industries
Others

CHAPTER 9 MARKET BREAKDOWN BY REGION

Introduction
North America
Europe
Asia-Pacific
Middle East and Africa
Latin America

CHAPTER 10 SUSTAINABILITY IN THE INDUSTRY: AN ESG PERSPECTIVE

ESG in the Desalination Industry
ESG Implementation at Hitachi Zosen
Environmental Initiatives
Social Initiatives
Governance Initiatives
Outcomes
Concluding Remarks from BCC

CHAPTER 11 PATENT ANALYSIS

Significance of Patents
Patent Analysis Based on Country of Origin
Patent Analysis Based on Year Issued
Patent Analysis Based on Patent Holders

CHAPTER 12 MERGERS AND ACQUISITIONS

M&A Analysis

CHAPTER 13 COMPETITIVE INTELLIGENCE

Industry Structure

CHAPTER 14 COMPANY PROFILES

ACCIONA

ALFA LAVAL AB

AQUATECH INTERNATIONAL LLC

BIOWATER INTERNATIONAL LTD.

DUPONT WATER SOLUTIONS

GRADIENT CORP. INC.

HANGZHOU WATER TREATMENT TECHNOLOGY DEVELOPMENT CENTER CO.
LTD.

HITACHI ZOSEN CORP.

IDE TECHNOLOGIES

KOVALUS SEPARATION SOLUTIONS

LG CHEM

PURE AQUA INC.

TORAY INDUSTRIES INC.

VEOLIA ENVIRONNEMENT S.A.

CHAPTER 15 APPENDIX: ACRONYMS

List Of Tables

LIST OF TABLES

Summary Table : Global Market for Seawater and Brackish Water Desalination, by Region, Through 2028

Table 1 : Classification of Water Quality

Table 2 : Comparison of Desalination Technologies

Table 3 : Cost Profiles of Desalination Technologies

Table 4 : Capital Costs for Desalination Methods

Table 5 : Cost of Membrane Desalination, Before 1985 to 2022

Table 6 : Forecast for Parameters for Seawater Desalination Plants

Table 7 : Worldwide Urban Population and Rate of Urbanization, 2022

Table 8 : 10 Most Populous Cities, 2023

Table 9 : Global Population, Energy Consumption and Water Consumption for Energy Trends, 2005–2050

Table 10 : Water Withdrawals by Sector, by Income Group, 2020

Table 11 : 25 Most Water-Stressed Countries, 2030 and 2040

Table 12 : Global Market for Seawater and Brackish Water Desalination, by Source, Through 2028

Table 13 : Global Market for Seawater Desalination, by Region, Through 2028

Table 14 : Global Market for Brackish Water Desalination, by Region, Through 2028

Table 15 : Global Market for Seawater and Brackish Water Desalination, by Technology, Through 2028

Table 16 : Global Market for RO Technology in Desalination, by Region, Through 2028

Table 17 : Global Market for Electrodialysis/EDI/EDR in Desalination, by Region, Through 2028

Table 18 : Global Market for Nanofiltration in Desalination, by Region, Through 2028

Table 19 : Global Market for MSF Distillation in Desalination, by Region, Through 2028

Table 20 : Global Market for MED Distillation in Desalination, by Region, Through 2028

Table 21 : Global Market for Hybrid Systems in Desalination, by Region, Through 2028

Table 22 : Global Market for Seawater and Brackish Water Desalination, by Application, Through 2028

Table 23 : Global Market for Desalination in Municipal Applications, by Region, Through 2028

Table 24 : Global Market for Desalination in Industrial Applications, by Region, Through 2028

Table 25 : Global Market for Desalination, by Region, Through 2028

Table 26 : North American Market for Desalination, by Country, Through 2028

Table 27 : European Market for Desalination, by Country, Through 2028
Table 28 : Asia-Pacific Market for Desalination, by Country, Through 2028
Table 29 : Middle East and African Market for Desalination, by Country, Through 2028
