## Abstracts

### Report Scope:

This report covers all the commercially available product forms that are being consumed by the end-user industries. The silicone industry will also be analyzed at the regional (and country) level.

The market size and estimates are provided in terms of volume (kilotons) and revenue (USD millions) with 2019 as base year. Market forecasts are provided for 2020 to 2025. The impact of COVID-19 is also considered while deriving the market estimates.

### Report Includes:

111 data tables and 16 additional tables

An overview of the global markets for silicones

Estimation of the market size and analyses of global market trends with data from 2019 to 2020, and projections of compound annual growth rates (CAGRs) through 2025

Analysis of market size and market estimates, both in terms of volume (Kilotons) and revenue (\$ Millions) and market share analysis of the silicones based on region, product form and end use

Identification of market drivers, restraints and other forces impacting the global market

Impact of COVID-19 on the silicone industry, and insights into regulatory

framework and new product launches

Coverage of events like mergers & acquisitions, joint ventures, collaborations or partnerships and other key market strategies

Company profiles of major players of the industry, including CHT Germany GmbH, Dow Silicones Corp., Evonik Industries AG, Innospec, Shin-Etsu Chemical and Wacker Chemie AG
